## GRENADA – NINTH FOLLOW-UP REPORT

### I. Introduction

1. This report presents an analysis of Grenada's report to the CFATF Plenary regarding progress made to correct the deficiencies identified in its third round Mutual Evaluation Report (MER). The third round Mutual Evaluation Report of Grenada was adopted by the CFATF Council of Ministers in May 2009 in Trinidad and Tobago. Grenada was placed on expedited follow-up and required to report every Plenary. Grenada's first follow-up report was presented at the Plenary in October 2009. No report was submitted to the Plenary in May 2010. Grenada submitted reports in November 2010, and May and November in 2011, 2012 and 2013. Grenada has submitted information in the attached matrix on measures taken since the Eighth Follow-Up Report to comply with the examiners' recommendations. Grenada was rated partially compliant or non-compliant on 10 Core and Key Recommendations and 27 other Recommendations. The Core and Key Recommendations are indicated in italics in the table below.

**Table 1; Ratings of Core and Key Recommendations**

Rec.	1	3	4	5	10	13	23	26	35	36	40	I	II	III	IV	V
Rating	PC	LC	C	NC	LC	NC	PC	LC	PC	C	LC	PC	NC	NC	NC	PC

2. With regard to the remaining Recommendations, Grenada was rated partially compliant or non-compliant on twenty-six (26) as indicated below:

**Table 2: Non Core and Key Recommendations rated Partially Compliant and Non-Compliant**

<b>Partially Compliant (PC)</b>	<b>Non-Complaint (NC)</b>
R. 14 (Protection & no tipping-off)	R. 6 (Politically exposed persons)
R. 17 (Sanctions)	R. 7 (Correspondent banking)
R. 20 (Other NFBP & secure transactions)	R. 8 (New technologies & non face-to-face business)
R. 25 (Guidelines & Feedback)	R. 9 (Third parties and introducers)
R. 30 (Resources, integrity and training)	R. 11(Unusual transactions)
R. 31 (National co-operation)	R. 12 (DNFBP – R.5,6,8-11)
R. 32 (Statistics)	R. 15 (Internal controls, compliance & audit)
R. 35 (Conventions)	R. 16(DNFBP – R.13-15 & 21)
	R. 18 (Shell banks)
	R. 19 (Other forms of reporting)
	R. 21 (Special attention for higher risk countries)
	R.22 (Foreign branches & subsidiaries)
	R. 24 (DNFBP – regulation, supervision and monitoring)
	R. 33 (Legal persons – beneficial owners)

	R. 34 (Legal arrangements – beneficial owners)
	SR. VI (AML requirements for money value transfer services)
	SR. VII (Wire transfer rules)
	SR. VIII (Non-profit organizations)
	SR. IX (Cross-border Declaration & Disclosure)

3. The following table gives some idea of the level of risk in the financial sector by indicating the size and integration of the sector in Grenada.

**Table 3: Size and integration of Grenada's financial sector  
As at February, 2014**

		Banks	Other Credit Institutions*	Securities	Insurance*	TOTAL
<b>Number of institutions</b>	Total #	5	11		24	40
<b>Assets</b>	US\$	918.7m	151.45m.		116m*	1,188.15m
<b>Deposits</b>	Total: US\$	884.8m	124.53m.		n.a+	1,009.33m
	% Non-resident	18.2% of deposits			n.a	
<b>International Links</b>	% Foreign-owned:	% of assets	% of assets	% of assets	% of assets	% of assets
		77.3%				
	#Subsidiaries abroad		0		0	

\* Estimate – Amalgamation of four smaller credit unions reduced the total to 11. Three insurance companies are 100% locally owns, two are minority locally owned and the rest are foreign.

+ Not applicable

## II. Summary of progress made by Grenada

4. Since the MER, the authorities in Grenada began to assess the various means to achieve compliance. The main focus of the authorities was instituting changes in the legal framework including consolidation of previous statutes, legislative amendments to specific laws and proposals for new legislation. As a result of this process the Money Services Business Act 2009 (MSBA) was enacted in April 2009 and the Insurance Act No 5 of 2010 (IA) in December 2009. Since the Follow-Up Report of November 2011, the Proceeds of Crime Act, 2012 (POCA) was enacted in January, 2012, followed by the Proceeds of Crime (Anti-Money Laundering and Terrorist Financing) Regulations, 2012 (POCAMLTFR), the Financial Intelligence Unit Act, 2012 (FIUA), and the Terrorism Act (TA) in February 2012. At the same time on February 17, 2012, the Proceeds of Crime (Anti-Money Laundering and Terrorist Financing) Guidelines (POCAMLTF Guidelines) were issued by the Anti-Money Laundering and Combating Terrorism Financing Commission (the Commission) as per section 32(1) of POCA. These statutes and guidelines provide for measures which address a large number of the outstanding examiners' recommended actions resulting from Grenada's MER. As noted in a previous report enactment of the POCA, POCAMLTFR, FIUA and the TA improved the level of compliance of Recommendations 1, 14, 17, 20, 25, 31, 35, SRII, SRIV, and SRV.

5. The authorization of the POCAMLTf Guidelines by the negative resolution of the House of Representatives and the enactment of the Terrorism (Amendment) Act 2013 (TAA) in August 2013 substantially enhanced Grenada's level of compliance with a number of Recommendations. These Recommendations included Recs. 5, 6, 7, 8, 11, 12, 15, 16, 18, 21, 22, 24, SR VII, and SR VIII. After the Plenary in November 2013 the following statutes were enacted:

- The Criminal Code (Amendment) Act, 2013 (CCAA, 2013)
- Proceeds of Crime (Amendment) (No 2) Act, 2013 (POCAA No 2 2013)
- The Proceeds of Crime Anti-Money Laundering and Terrorist Financing (Amendment) Guidelines, 2013 (POCAMLTfA Guidelines 2013)
- Terrorism (Amendment) (No 2) Act, 2013 (TAA No 2, 2013)
- Proceeds of Crime (Anti-Money Laundering and Terrorist Financing)(Amendment) Regulations (POCAMLTfAR)
- Banking (Amendment) Act 2013
- Offshore Banking (Amendment) Act 2013
- International Companies (Amendment)(No 2) Act 2013
- Companies (Amendment) Act, 2014

## Scope of Report

6. The Plenary in November 2013 decided that all members in the follow-up process will be required to complete their reform measures by the November 2014 Plenary. In accordance with present procedures the following is a report on measures taken by Grenada since November 2013 to deal with the recommended actions in those Financial Action Task Force (FATF) Recommendations rated partially compliant (PC) or non-compliant (NC).

## Core Recommendations

### Recommendation 1

*Examiners' Rec. - The authorities should consider pursuing ML as a stand-alone offence*

7. As noted in the follow-up report of May 2012 sections 34 and 35 of POCA together should allow for money laundering to be prosecuted without the need for a conviction on a predicate offence. As such, the authorities were advised to submit information as to such prosecutions and convictions. In the last follow-up report the authorities advised that there were eight (8) money laundering prosecutions for 2012 with one (1) case resulting in two (2) convictions, five (5) cases were withdrawn and two (2) were pending. The authorities have advised that for the year 2013 to January 2014 there have been twenty-eight (28) money laundering cases with nineteen (19) convictions, six (6) cases withdrawn and three (3) pending. The above demonstrates the authorities' ability to pursue ML as a stand-alone offence which complies with the examiners' recommendation.

**Examiners' Rec.** - *Schedules I to III of DAPCA should be amended to include all narcotic drugs and psychotropic substances listed in Tables I and II of the Vienna Convention.*

8. Under the Drug Abuse (Prevention and Control) (Amendment) Order, 2011 made by the Minister of Health on June 15, 2011 pursuant to the powers conferred by sections 3(2) and (3) of the Drug Abuse (Prevention and Control) Act, 1992 (DAPCA), Part III of Schedule I of the DAPCA was repealed and replaced by Tables I and II of the Vienna Convention. This measure fully complies with the examiners' recommendation.

**Examiners' Rec.** - *The authorities should extend the range of predicate offences for ML to include all the FATF designated categories of offences i.e. trafficking in human beings and migrant smuggling, counterfeiting and piracy of products, environmental crime and piracy and the terrorist financing offence of providing or receiving money or other property in support of terrorist acts.*

9. Money laundering as set out in sections 34 and 35 of the POCA, involves dealing with proceeds of criminal conduct. Proceeds of criminal conduct are defined in section 2 of the POCA to include benefit from drug trafficking or any relevant offence. A relevant offence is further defined to include any offence falling within the "designated category of offences" outlined under the FATF Recommendations and contained in the Schedule attached to POCA.

10. The list of designated offences as set out in the referenced Schedule consist of all FATF designated categories of offences including trafficking in human beings and migrant smuggling, counterfeiting and piracy of products, environmental crime and piracy and terrorist financing as detailed in the examiners' recommendation. However, it was indicated in the MER that there was no legislation criminalizing these offences which would be a prerequisite for making them predicate offences for money laundering as required by FATF standards. It is noted that terrorist financing in particular the offence of providing or receiving money or other property in support of terrorist acts is criminalized in section 19 of the TA 2012, counterfeiting and piracy of products are criminalized in the Copyright Act no. 16 of 2011.

11. The Criminal Code (Amendment) Act, 2013 (CCAA, 2013) was enacted in November 2013 to criminalize the offences of trafficking in human beings, migrant smuggling, environmental crimes and piracy. Section 4 of the CCAA, 2013 inserts section 176B after section 176A of the Criminal Code Cap 72A (CC). Section 176B criminalizes migrant smuggling with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 5 of the CCAA, 2013 inserts section 176C after section 176B. Section 176C criminalizes human trafficking with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 6 of the CCAA, 2013 inserts section 271A after section 271 of the CC. Section 271A criminalizes environmental pollution with a penalty on conviction on indictment of a fine of two hundred thousand dollars or a term of imprisonment for fifteen years. Finally, section 7 of the CCAA, 2013 replaces former section 335 with section 355 criminalizing piracy on the sea and in the air with a penalty on conviction on indictment of life imprisonment. The above provisions fully comply with the examiners recommendation.

## **Recommendation 5**

**Examiners' Rec.** - *Competent authorities may consider carrying out a national risk assessment to determine the risk of money laundering and terrorist financing to enable the application of reduced or simplified anti-money laundering and counter terrorist financing measures.*

12. The authorities indicate that sections 21 and 22 of Part III of the POCAMLTF Guidelines provide for customer due diligence (CDD) measures including enhanced CDD. It is noted that the explanation sections of section 21 provides guidance with the applicability of the risk based CDD approach by financial institutions, entities or professionals. There is no indication in the POCAMLTF Guidelines that a national risk assessment was conducted and used to enable the application of reduced or simplified anti-money laundering and counter terrorist financing measures. The authorities included the need for technical assistance in conducting a national risk assessment as part of Grenada's Technical Assistance and Training Needs matrix for 2013 that was submitted to the CFATF. Grenada sent representatives to the National Risk Assessment Workshop held in Barbados in March 2014. As such, this recommendation remains outstanding.

***Examiners' Rec. - Competent authorities should consider making the Guidelines mandatory and enforceable with effective, proportionate and dissuasive sanctions***

13. As noted above the Commission issued the POCAMLTF Guidelines under section 32(1) of POCA. According to section 32(2) of POCA the POCAMLTF Guidelines are applicable to entities regulated by the Commission, entities designated as vulnerable to money laundering and terrorist financing by the Commission, and professionals engaged in preparing or carrying out transactions for their clients concerning the following:

- i. The buying and selling of real estate
- ii. Managing client monies, securities or other assets
- iii. The management of bank, savings or securities accounts
- iv. The organization of contributions for the creation, operation or management of companies
- v. The creation, operation or management of legal persons or arrangements
- vi. The buying and selling of business entities: and
- vii. Any other activity relating or incidental to any of the matters outlined in (i) to (vi)

14. Additionally, section 4 of the POCAMLTF Guidelines specifies that every entity and professional is subject to the POCAMLTF Guidelines. The definitions of entity and professional as set out in section 2 of the POCAMLTF Guidelines with reference to sub-regulation 2(1) of the POCAMLTFR include all financial institutions and the categories of DNFBPs and their relevant activities as required by the FATF.

15. With regard to sanctions for breaches of the POCAMLTF Guidelines section 32(4) of POCA was amended by the Proceeds of Crime (Amendment)(No.2) Act, 2013 in December 2013 to increase the penalty on summary conviction of a fine not exceeding EC \$50,000 (US \$18,500) or a term of imprisonment not exceeding four years or both. Additionally, section 17 of the POCAMLTF Guidelines 2013 amends administrative penalties for specific breaches listed in Schedule IV of the POCAMLTF Guidelines. These penalties are fines ranging from EC \$10,000 (US \$3,700) to EC \$40,000 (US\$14,814) for corporate entities and EC \$7,000 (US\$2,600) to EC \$25,000 (US\$9,250) for individuals. These measures allowing for a range of penalties provides for proportional application, however while the amounts for individuals can be considered dissuasive in the context of the a per capita gross domestic product of US\$7, 868 for 2011, the penalties for corporate entities are not, particularly when compared with the sanctions available

under POCA which include on summary conviction a fine of EC \$500,000 or imprisonment for a term of three years or both and on conviction on indictment an unlimited fine or imprisonment for a term not exceeding ten years. As such while the POCAMLTF Guidelines are mandatory and enforceable in Grenada, the penalties are not considered dissuasive. This recommendation has only been partially satisfied.

***Examiners' Rec.*** - Regulations or legislative amendments should be introduced to require CDD measures when there is suspicion of money laundering or terrorist financing and for occasional transactions over US\$1,000 that are wire transfers

16. Subsection 21(4)(c) of the POCAMLTF Guidelines requires an entity to undertake CDD when there is suspicion of money laundering or terrorist financing irrespective of any exemption or threshold that may be referred to in the AMLTF Guidelines. It is noted that this requirement is applicable only to entities and does not include professionals. The above recommendation is part of the asterisked essential criterion 5.2 and in accordance with the FATF Methodology needs to be implemented by laws, decrees or regulations issued or authorized by a legislative body. The above measure is incorporated in the POCAMLTF Guidelines which was issued by the Commission and subject to negative resolution by the House of Representatives on May 28, 2013. While the measure complies with FATF requirements it does not include professionals. An amendment to provide for the addition of the words "or professionals" wherever the word "entity" appears without the words "or professionals" in the POCAMLTF Guidelines was included as subsection 6(a) of the Proceeds of Crime (Anti-Money Laundering and Terrorist Financing) (Amendment) Guidelines, 2013 Statutory Rules and Order (SRO) 24 of 2013 (POCAMLTF Guidelines 2013). The amendment was given effect on November 15, 2013 by a resolution passed by the House of Representatives. Consequently this recommendation has been met.

***Examiners' Rec.*** - Regulations or legislative amendments should be introduced for financial institutions to be required to undertake CDD measures where there are doubts about the veracity or adequacy of previously obtained CDD.

17. Subsection 21(4) (e) of the POCAMLTF Guidelines requires an entity to undertake customer due diligence when the entity has doubts about the veracity or adequacy of previously obtained customer identification data. It is noted that this requirement is applicable only to entities and does not include professionals. As noted with the previous recommendation, this requirement is an asterisked obligation in the FATF methodology and needs to be enacted in law or regulations authorized by a legislative body. Given the authorization of the POCAMLTF Guidelines by the House of Representative the measure complies with FATF requirements. As already mentioned, an appropriate amendment was given effect on November 15, 2013 by a resolution passed by the House of Representatives. Consequently, this recommendation has been met.

***Examiners' Rec*** - Regulations or legislative amendments should be introduced for financial institutions to be required to verify that any person purporting to act on behalf of the customer is so authorized, and identify and verify the identity of that person.

18. Subsection 21(3)(f) of the POCAMLTF Guidelines stipulates that customer due diligence requires that entities and professionals should verify that a person who purports to act on behalf of an applicant for business or a customer, which is a legal person or a partnership, trust or other legal arrangement is so authorized and to identify and verify the person's identity. It is noted that in the AMLTF Guidelines, customer due diligence is first defined and then stipulated for certain circumstances. However, only entities are required to implement customer due diligence in

subsection 21(4) of the AMLTF Guidelines. Professionals appear to have been excluded in error. However as already noted an appropriate amendment was given effect on November 15, 2013 by a resolution passed by the House of Representatives. As noted above, the measure complies with the examiners' recommendation, which is an asterisked obligation since the POCAMLTF Guidelines have been authorized by the House of Representatives.. Consequently, this recommendation has been met.

***Examiners' Rec - Financial institutions should be legislatively required to verify the identification of customers***

19. Subsection 21(3) (a) of the POCAMLTF Guidelines defines customer due diligence to require an entity or a professional to inquire into and identify the applicant for business, or the intended customer, and verify the identity. The concerns as noted above with the definition of customer due diligence and its imposition only to entities in subsection 21(4) of the AMLTF Guidelines and the passing of the appropriate amendment are also applicable. Additionally, the conditions with regard to this being an asterisked FATF requirement is also appropriate. Consequently, this recommendation has been met.

***Examiners' Rec - Financial institutions should be required to understand the ownership and control structure of customers that are legal persons or legal arrangements***

20. Subsection 21(5) (d) of the POCAMLTF Guidelines requires that where an applicant for business or customer is the trustee of a trust or a legal person, additional due diligence to be undertaken should include determining in the case of a legal person, the ownership of the legal person and, where the legal person is a company, details of any group of which the company is a part, including details of the ownership of the group. It is noted that the above measure is limited to ownership and does not include the control structure of legal persons or legal arrangements. An amendment to section 21(5) to include the control structure of legal persons and legal arrangements was included as subsection 6(e) of the POCAMLTF Guidelines 2013. The amendment was given effect on November 15, 2013 by a resolution passed by the House of Representatives. Consequently this recommendation has been met.

***Examiners' Rec - Financial institutions should be legislatively required to determine the natural persons that ultimately own or control the customer***

21. With regard to the above recommendation the authorities have referred to subsection 21 (3) (a) of the POCAMLTF Guidelines which defines customer due diligence to require an entity or a professional to inquire into and identify the applicant for business, or the intended customer, and verify the identity. However this measure only imposes a requirement to identify and verify the identity of a customer and does not specify that entities and professionals determine the natural persons that ultimately own or control the customer, particularly in the case of legal persons and legal arrangements. An amendment to section 21(3)(a) of the POCAMLTF Guidelines specifying the above requirement was included as subsection 6(b) of the POCAMLTF Guidelines 2013. The amendment was given effect on November 15, 2013 by a resolution passed by the House of Representatives. Consequently this recommendation has been met.

***Examiners' Rec - Financial institutions should be required to obtain information on the purpose and intended nature of the business relationship***

22. Subsection 21(3) (b) of the POCAMLTF Guidelines defines customer due diligence to require an entity or a professional to obtain information on the purpose and intended nature of the business relationship. The concerns as noted above with the definition of customer due diligence and its imposition only to entities in subsection 21(4) of the POCAMLTF Guidelines and the passing of the appropriate amendment are also applicable. As already noted the POCAMLTF Guidelines have been authorized by the House of Representatives therefore this recommendation has been met.

***Examiners' Rec*** - *Legislative amendments should be introduced to require that financial institutions and other relevant persons apply ongoing due diligence measures to their client base. This should include scrutiny of transactions and ensuring that CDD documents and information are kept up-to-date*

23. Subsection 21(3) (e) of the POCAMLTF Guidelines defines customer due diligence to require an entity or a professional to conduct, where a business relationship exists, an ongoing monitoring of that relationship and the transactions undertaken for purposes of making an assessment regarding consistency between the transactions undertaken by the customer and the circumstances and business of the customer. This measure as part of the POCAMLTF Guidelines complies with FATF standards. However it is noted that the requirement to ensure that CDD documents and information are kept up-to-date is not included. An amendment to sub section 21(3) (g) of the POCAMLTF Guidelines to include the scrutiny of transactions and ensure that CDD documents and information are kept up-to-date was included as subsection 6(c) of the POCAMLTF Guidelines 2013. The amendment was given effect on November 15, 2013 by a resolution passed by the House of Representatives. Consequently this recommendation has been met.

***Examiners' Rec*** - *Financial institutions should be required to perform enhanced due diligence for higher risk categories of customers.*

24. Subsection 22(2) of the POCAMLTF Guidelines requires every entity or professional to engage in enhanced customer due diligence in its or his dealings with an applicant for business or a customer who, or in respect of a transaction which, is determined to be a higher risk applicant for business or customer, or transaction, irrespective of the nature or form of the relationship or transaction. The above measure, as part of the POCAMLTF Guidelines, complies with FATF standards.

***Examiners' Rec*** - *Financial institutions should be required to limit the application of simplified or reduced CDD measures to non-resident customers from countries that the authorities in Grenada are satisfied are in compliance with FATF Recommendations.*

25. The authorities have cited subsection 21(6) (h) of the POCAMLTF Guidelines which stipulates that an entity in adopting a risk-based approach may determine customers or transactions that it considers carry low risk in terms of the business relationship, and to make such a determination, the entity may take into account that the applicant for business or customers are resident in foreign jurisdictions which the Commission is satisfied are in compliance with and effectively implement the FATF Recommendations. The above measure establishes a criterion for determining low risk rather than imposing a requirement limiting the application of simplified or reduced CDD measures. An amendment to section 21 incorporating the above requirement was included as subsection 6 (f) of the POCAMLTF Guidelines 2013. The amendment was given effect on November 15, 2013 by a resolution passed by the House of Representatives. Consequently this recommendation has been met.

***Examiners' Rec*** - Simplified CDD measures should be prohibited whenever there is suspicion of money laundering or terrorist financing

26. With regard to the above recommendation the authorities have cited an amendment to section 21 of the POCAMLTF Guidelines in subsection 6(f) of POCAMLTF Guidelines 2013 which prohibits entities and professionals from considering as low risk instances where there is a suspicion that a customer is engaged in money laundering or terrorist financing. Since the criterion of low risk is necessary for the application of reduced or simplified CDD measures as stated in subsection 21(8) of the POCAMLTF Guidelines, the amendment effectively prohibits simplified CDD measures whenever there is a suspicion of money laundering and terrorist financing. Consequently this recommendation is met.

***Examiners' Rec*** - Financial institutions should be required to terminate a business relationship if the verification of a customer cannot be completed

27. Subsection 25(5)(c)(i) of the POCAMLTF Guidelines stipulates that where an entity or a professional establishes a business relationship and is unable to carry out the required customer due diligence or, as the case may be enhanced customer due diligence requirements in respect of the applicant for business, the entity or professional shall terminate the business relationship. This measure complies with the recommendation.

***Examiners' Rec*** - Financial institutions should be required to perform CDD measures on existing clients and to conduct due diligence on existing relationships at appropriate times. Financial institutions should also be required to review and consider closing existing accounts where due diligence is inadequate against the requirements of Recommendation 5

28. With regard to the above recommendation the authorities have cited an amendment to subsection 21(4) of the POCAMLTF Guidelines in subsection 6(d) of POCAMLTF Guidelines 2013 which requires an entity or professional to undertake CDD where there is an existing client or business relationship at appropriate times. Additionally subsection 25(5) of the POCAMLTF Guidelines was amended in section 8 of POCAMLTF Guidelines 2013 to require an entity or professional which establishes a business relationship and is unable to carry out required or enhanced CDD to terminate the business relationship and close all existing accounts. These provisions fully comply with the examiners' recommendation.

### **Recommendation 13**

***Examiners' Rec.*** – The authorities should extend the range of predicate offences for ML to include all the FATF designated categories of offences by criminalizing trafficking in human beings and migrant smuggling, counterfeiting and piracy of products, environmental crime and piracy and the terrorist financing offence of providing or receiving money or other property in support of terrorist acts.

29. As noted under Recommendation 1 in this report the list of designated offences as set out in the Schedule attached to POCA consist of all FATF designated categories of offences

including trafficking in human beings and migrant smuggling, counterfeiting and piracy of products, environmental crime and piracy and terrorist financing as detailed in the examiners' recommendation. However, the recommendation requires the criminalization of these offences which would be a prerequisite for making them predicate offences for money laundering as required by FATF standards. It is noted that terrorist financing in particular the offence of providing or receiving money or other property in support of terrorist acts is criminalized in section 19 of the TA 2012. Counterfeiting and piracy of products are criminalized in the Copyright Act no. 16 of 2011.

30. The CCAA, 2013 was enacted in November 2013 to criminalize the offences of trafficking in human beings, migrant smuggling, environmental crimes and piracy. Section 4 of the CCAA, 2013 inserts section 176B after section 176A of the Criminal Code Cap 72A (CC). Section 176B criminalizes migrant smuggling with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 5 of the CCAA, 2013 inserts section 176C after section 176B. Section 176C criminalizes human trafficking with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 6 of the CCAA, 2013 inserts section 271A after section 271 of the CC. Section 271A criminalizes environmental pollution with a penalty on conviction on indictment of a fine of two hundred thousand dollars or a term of imprisonment for fifteen years. Finally, section 7 of the CCAA, 2013 replaces former section 335 with section 355 criminalizing piracy on the sea and in the air with a penalty on conviction on indictment of life imprisonment. The above provisions fully comply with the examiners recommendation.

***Examiners' Rec.*** - *The TA should be amended to make the reporting of suspicious transactions relating to financing of terrorism mandatory and include funds used for terrorism or by terrorist organisation or those who finance terrorism*

31. Section 25 of the TA 2012, criminalises the failure to disclose information by any person in the regulated and public sectors who knows or suspects or has reasonable grounds for knowing or suspecting that another person has committed an offence under sections 19 to 22 of TA 2012. Disclosure is to be made to a police officer or a nominated officer. Sections 19 to 22 details terrorist financing offences. While section 19 of the TA 2012 criminalizes the offence of providing or receiving money or other property in support of terrorist acts, funding of terrorist organizations or those who finance terrorism has not been criminalized and therefore are not part of the suspicious transaction reporting. The authorities have advised that an amendment was made under the Terrorism (Amendment) Act 2013 (TAA 2013) which was enacted in August 2013 to insert in section 19 of the TA a provision criminalizing the providing or collecting of property for and on behalf of an individual terrorist or terrorist organization and with the intention that the property should be used or there is reasonable cause to suspect that it may be used for the purpose of terrorism. This provision directly links the provision of funding for the purpose of terrorism. However, the requirement is for the criminalization of any funding of terrorist organizations or those who finance terrorism. Section 9 of the TAA No. 2 of 2013 enacted in November 2013 criminalizes the collecting, providing or attempts to collect or provide or make available any property whether directly or indirectly to any terrorist organization or any person who is concerned or connected with the financing of terrorism. This provision results in full compliance with the examiners' recommendation.

***Examiners' Rec*** – *All suspicious transactions including attempted transactions should be legislatively required to be reported regardless of the amount of transaction.*

32. The above recommendation has been set out in section 20(2) of the POCAMLTF Guidelines requiring employees of an entity or a professional to report any attempted activity or transactions. This complies with the recommendation.

**Examiners' Rec.** – *The requirement to report suspicious transactions should apply regardless of whether they are thought among other things to involve tax matters.*

33. Section 8 of POCAMLTFA Guidelines 2013 amends subsection 25(5) of the POCAMLTF Guidelines requires an entity or professional to report suspicious transactions to the FIU regardless of the amount or whether they are thought to involve tax matters. This provision complies with the examiners' recommendation.

## **Special Recommendation II**

**Examiners' Rec.** – *Schedule 2 of the TA should be amended to include the treaties on the Convention on the Physical Protection of Nuclear Material and the International Convention for the Suppression of Terrorist Bombing*

34. The above recommendation resulted from the definition of terrorist act as set out in previous TA not including offences under the treaties on the Convention on the Physical Protection of Nuclear Material and the International Convention for the Suppression of Terrorist Bombing as required by Article 2 of the Terrorist Financing Convention. It is noted that the present TA which replaces the previous Act not only does not include offences from the recommended Conventions but also appears to have excluded the other Conventions which were previously listed in Schedule 2 of the previous TA. Section 2 of the TA was amended by the TAA 2013 in August 2013 by inserting a new paragraph (iiia) revising the definition of terrorism to include offences within the scope of and defined in any of the treaties listed in Part IA of the Fifth Schedule. The Schedule to the TA was amended by the TAA 2013 to include the Conventions required by Article 2 of the Terrorist Financing Convention. Consequently this recommendation has been met.

**Examiners' Rec.** – *The TA should be amended to include the terrorist financing offences of the provision/collection of funds for an individual terrorist.*

35. Sections 19 to 22 of the TA criminalizes the soliciting, receiving, providing, using, possessing and arranging for property to be used for terrorist purposes. Additionally, the facilitating of the retention or control by or on behalf of another person of terrorist property is also criminalized. Terrorist property is defined in section 18 of the TA to mean property however acquired which is likely to be used for the purpose of terrorism, proceeds from the commission of acts of terrorism and proceeds of acts carried out for the purpose of terrorist acts. The above provisions specifically only criminalize the provision/collection of funds to be used for terrorism and not all funds collected for or on behalf of an individual terrorist.

36. The authorities have advised that an amendment was made under the TAA 2013 which was enacted in August 2013 to insert in section 19 of the TA a subsection 3(a) criminalizing the providing or collecting of property for and on behalf of an individual terrorist or terrorist organization and with the intention that the property should be used or there is reasonable cause

to suspect that it may be used for the purpose of terrorism. This provision directly links the provision of funding for the purpose of terrorism. However, the requirement is for the criminalization of any funding of an individual terrorist. Section 9 of the TAA No. 2 of 2013 amends subsection (3a) of section 19 of the TA by inserting paragraph (aa) which criminalizes the collecting, providing or attempts to collect or provide or make available any property whether directly or indirectly to any terrorist organization or any person who is concerned or connected with the financing of terrorism. This provision refers to terrorist organization and persons concerned or connected with the financing of terrorism and does not include individual terrorists. As such the recommendation is still outstanding.

***Examiners' Rec.*** – *The TA should be amended to provide sanctions for the terrorist financing offence of providing or receiving money or other property in support of terrorist acts.*

37. The terrorist financing offences set out in sections 19 to 22 of the TA include the offence of providing or receiving money or other property in support of terrorist acts. The penalties for offences under sections 19 to 22 of the TA consist of on summary conviction a fine not exceeding EC\$ 400,000 or imprisonment for four years or both and on conviction on indictment to a fine not exceeding EC \$1,000,000 or to imprisonment for thirty years or both. Imposition of these penalties complies with the examiners' recommendation.

***Examiners' Rec.*** - *The TA should be amended to provide for the terrorist financing offence of fund-raising to apply regardless of whether the person alleged to have committed the offence is in the same country or a different country from the one in which the terrorist/terrorist organization is or the terrorist act occurred/or will occur*

38. The terrorist financing offences as set out in sections 19 to 22 of the TA do not provide for the terrorist financing offence of fund-raising to apply regardless of whether the person alleged to have committed the offence is in the same country or a different country from the one in which the terrorist/terrorist organization is or the terrorist act occurred/or will occur. The TA was amended by the TAA 2013 by the insertion of a new section 22A which allows for the terrorist financing offence occurring outside of Grenada to be treated as having been committed in Grenada. Consequently this examiners' recommendation has been met.

#### **Special Recommendation IV**

***Examiners' Rec.*** - *The TA should be amended to make the reporting of suspicious transactions relating to financing of terrorism mandatory and include funds used for terrorism or by terrorist organisation or those who finance terrorism*

39. Section 25 of the TA 2012, criminalises the failure to disclose information by any person in the regulated and public sectors who knows or suspects or has reasonable grounds for knowing or suspecting that another person has committed an offence under sections 19 to 22 of TA 2012. Disclosure is to be made to a police officer or a nominated officer. Sections 19 to 22 details terrorist financing offences. While section 19 of the TA 2012 criminalizes the offence of providing or receiving money or other property in support of terrorist acts, funding of terrorist organizations or those who finance terrorism has not been criminalized and therefore are not part of the suspicious transaction reporting. The authorities have advised that an amendment was made under the TAA 2013 which was enacted in August 2013 to insert in section 19 of the TA a provision criminalizing the providing or collecting of property for and on behalf of an individual terrorist or terrorist organization and with the intention that the property should be used or there is reasonable cause to suspect that it may be used for the purpose of terrorism. This provision directly links the provision of funding for the purpose of terrorism. However, the requirement is

for the criminalization of any funding of terrorist organizations or those who finance terrorism. Section 9 of the TAA No. 2 of 2013 amends subsection (3a) of section 19 of the TA by inserting paragraph (aa) which criminalizes the collecting, providing or attempts to collect or provide or make available any property whether directly or indirectly to any terrorist organization or any person who is concerned or connected with the financing of terrorism. This provision results in full compliance with the examiners' recommendation.

***Examiners' Rec*** – *All suspicious transactions including attempted transactions should be legislatively required to be reported regardless of the amount of transaction.*

40. The above recommendation has been set out in section 20(2) of the POCAMLTF Guidelines requiring employees of an entity or a professional to report any attempted activity or transactions. This complies with the recommendation.

***Examiners' Rec.*** – *The requirement to report suspicious transactions should apply regardless of whether they are thought among other things to involve tax matters.*

41. Section 8 of POCAMLTFA Guidelines 2013 amends subsection 25(5) of the POCAMLTF Guidelines requiring an entity or professional to report suspicious transactions to the FIU regardless of the amount or whether they are thought to involve tax matters. This provision complies with the examiners' recommendation.

## **Key Recommendations**

### **Recommendations 23**

***Examiners' Rec.*** - *The Eastern Caribbean Central Bank (ECCB) should review its inspection program to ensure effective compliance of its licensees with AML/CFT obligations.*

42. The authorities have advised that the ECCB has conducted on-site examinations of three banks during the last three years, the most recent of which occurred as at March 31, 2013. These examinations included checks to ensure compliance with AML/CFT obligations. Information submitted for this report states that comprehensive inspection/supervision was carried out by the ECCB during the period June 24 to July 5, 2013 to ensure that the banks policies, programmes and the country's AML/CFT legislations are adhered to. The ECCB assured that inspection of countries are done randomly before scheduling an inspection within the region. The records of the bank are taken in to consideration in assessing its vulnerability to ML/TF. While this demonstrates that the ECCB is conducting AML/CFT examinations there is no indication as to the findings of these examinations and whether sanctions were applied for any AML/CFT breaches to ensure effective compliance. Consequently this recommendation remains outstanding.

***Examiners' Rec.*** - *Legal provisions should be enacted for fitness and probity checks on directors, shareholders, and management of licensees of the ECSRC and GARFIN..*

43. As noted in the follow-up report of May 2012 the above recommendation for legal provisions to be enacted for fitness and probity checks on directors, shareholders and management of licensees of the Eastern Caribbean Securities Regulatory Commission (ECSRC) and the Grenada Authority for the Regulation of Financial Institutions (GARFIN) was partially met for the licensees of GARFIN under the provisions of the Insurance Act and the Money Services Business Act (MSBA). At present, the authorities advise that legislation to address the issue is pending and should be completed during the first quarter of 2014. Consequently this recommendation has been partially met.

***Examiners' Rec. - Money value transfer service operators should be subject to effective systems for monitoring and ensuring compliance with national AML/CFT requirements.***

44. The authorities had indicated in previous reports that a legal framework was established for implementing effective systems for monitoring and ensuring compliance with AML/CFT requirements by the enactment of the MSBA and that GARFIN had begun an on-site inspection regime by inspecting all three money service operators in Grenada in 2011. It was noted that one of the money service operators did not require IDs from their clients to conduct transactions. No sanction was applied but a recommendation for remedial action was made and was complied with within three months of the date of GARFIN's inspection report. No inspections of money service operators occurred during 2012. One inspection was completed in January 2013. There were no major compliance issues arising from the inspection. GARFIN maintained constant contact with the institution to ensure submission of annual audited financial statements and follow-ups. GARFIN has also been conducting off-site supervision of all money service operators during 2013. The above measures suggest that the examiners' recommendation has been met. Given the above one of the examiners recommendations remains outstanding and another partially outstanding.

### **Recommendation 35**

***Examiners' Rec. - The authorities should extend the range of predicate offences for ML to accord with the FATF Designated Categories of Offences.***

45. As noted under Recommendation 1 in this report the list of designated offences as set out in the Schedule attached to POCA consist of all FATF designated categories of offences including trafficking in human beings and migrant smuggling, counterfeiting and piracy of products, environmental crime and piracy and terrorist financing as detailed in the examiners' recommendation. However, the recommendation requires the criminalization of these offences which would be a prerequisite for making them predicate offences for money laundering as required by FATF standards. It is noted that terrorist financing in particular the offence of providing or receiving money or other property in support of terrorist acts is criminalized in section 19 of the TA 2012. Counterfeiting and piracy of products are criminalized in the Copyright Act no. 16 of 2011.

46. The CCAA, 2013 was enacted in November 2013 to criminalize the offences of trafficking in human beings, migrant smuggling, environmental crimes and piracy. Section 4 of the CCAA, 2013 inserts section 176B after section 176A of the Criminal Code Cap 72A (CC). Section 176B criminalizes migrant smuggling with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 5 of the CCAA, 2013 inserts section 176C after section 176B. Section 176C criminalizes human trafficking with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 6 of the CCAA, 2013 inserts section 271A after section 271 of the CC. Section 271A criminalizes environmental pollution with a penalty on conviction on indictment of a fine of two hundred thousand dollars or a term of imprisonment for fifteen years. Finally, section 7 of the CCAA, 2013 replaces former section 335 with section 355 criminalizing piracy on the sea and in the air with a penalty on conviction on

indictment of life imprisonment. The above provisions fully comply with the examiners recommendation

***Examiners' Rec - the authorities should amend relevant legislation to cover all the activities required to be criminalised in accordance with the Conventions***

47. As noted in Grenada's MER, there are no legislative provisions covering Articles 8, 10, 11 of the Vienna Convention and Articles 20 and 24 of the Palermo Convention. The authorities have advised that a legal consultant is being used to expedite the process to address this recommendation. Consequently this recommendation remains outstanding.

### **Special Recommendation I**

48. The recommendation requires the authorities to implement the UN Security Council Resolutions relating to the prevention and suppression of terrorist financing as set out in S/RES/1267(1999) and S/RES/1373(2001). The authorities have advised that both UN Security Council resolutions have been implemented in the TAA (No. 2) Act 35 of 2013. The specific provisions of the TAA (No. 2) Act 35 of 2013 addressing this matter are discussed in this report in the section under Special Recommendation III. The conclusion in the section stated that the provisions were partially compliant with the requirements of the resolutions and on that basis the examiners' recommendations are partially outstanding.

### **Special Recommendation III**

***Examiners' Rec – The TA should be amended to allow for the freezing of terrorist funds or other assets of persons designated by the United Nations Al-Quaida and Taliban Sanctions Committee in accordance with S/RES/1267(1999).***

49. The authorities have advised that the TAA (No. 2) Act 35 of 2013 amends section 14 of the TA by inserting freezing provisions for designated entities in accordance with the requirements of S/RES/1267(1999). With regard to the examiners' recommendation it is noted that it reflects the requirements of the first criterion of SR III in the FATF methodology. The criterion requires the freezing of funds including funds derived from funds or other assets owned or controlled directly or indirectly or other assets of entities designated by the United Nations Al-Quaida and Taliban Sanctions Committee without delay. In order to assess compliance, the provisions of the TAA (No. 2) Act 35 of 2013 will have to be analyzed against the requirements of the criterion.

50. With regard to the freezing of funds of designated entities, section 5 of the TAA (No. 2) Act 35 of 2013 amends section 14 of the TA by inserting subsection 14A. Subsection 14A(1) defines designated entities for section 14AB and 14C to mean individuals or entities and their associates designated as terrorist entities by the Security Council of the United Nations. Section 14A requires the FIU to maintain a list of designated entities to be circulated to financial institutions which are required to report to the FIU whether any designated entity has funds with the institution. Section 14B provides for the Attorney General to submit on the basis of information supplied by the FIU from a financial institution an exparte application to a judge for an order to freeze without delay the funds of any designated entity.

51. While the above process is in general accordance with the requirements of the criterion there are some specifics which need clarification. While the measures allow for the freezing of funds of any designated entity, there is no definition of funds in the Act to compare against the requirement of the criterion as stated above. Additionally, the length of time taken to implement any freezing order from the moment a financial institution has identified funds held by a designated entity to the enforcement of a freezing order is important in assessing whether the process complies with requirement “without delay”. It should be noted that the requirement “without delay” has been consistently defined in these circumstances as a period of hours from the moment of first identification by the financial institution to the enforcement of the freezing order. As such, the authorities will have to provide information as to the length of time of the above process and what has been the time period in applying for and executing freezing orders. Based on the above this recommendation remains partially outstanding.

***Examiners’ Rec.*** – *The TA should be amended to provide for the freezing of terrorist funds or other assets of persons designated in the context of S/RES/1373(2001).*

52. The authorities have also advised that the TAA (No. 2) Act 35 of 2013 also includes the requirements of S/RES/1373(2001) since persons designated under S/RES/1373(2001) are covered in the definition of designated entities in subsection 14A(1). As such, the process outlined above for S/RES/1267(1999) will also be applicable for S/RES/1373(2001). Given this, the same concerns will also be applicable. Consequently this recommendation is partially met.

***Examiners’ Rec.*** – *The Taliban should be added as a proscribed organization under the TA.*

53. In accordance with the above recommendation the TA was amended by listing the Taliban in Part 1A of the Fifth Schedule of the TA. This recommendation has been met.

***Examiners’ Rec.*** – *The authorities should issue clear guidance to financial institutions concerning their obligations in taking action for freezing accounts in relation to the circulated lists of terrorists..*

54. No information has been provided regarding this recommendation which therefore remains outstanding.

***Examiners’ Rec.*** – *The TA should contain procedures for the de-listing of names of proscribed organizations and terrorists listed in the Schedule to the TA.*

55. Section 7 of the TAA (No 2) Act 35 of 2013 amends section 14 of the TA by inserting section 14B which provides for the Attorney General to submit on the basis of information supplied by the FIU from a financial institution an exparte application to a judge for an order to freeze without delay the funds of any designated entity. Additionally subsections (8) to (12) establishes procedures for entities which includes designated entities affected by freezing orders under subsections (3) and (4) of section 14B of the TA to challenge such freezing orders. The Attorney General under subsection (11) of section 14B is required to review all freezing orders implemented under subsection (3) every six (6) months to determine whether the circumstances continue to exist in respect of the listed entity. One of the circumstances for consideration is whether the individual or entity is still designated as a terrorist entity by the Security Council. Consequently once the Security Council has delisted a name, an application to revoke any relevant freezing order will be made. The above provisions are in accordance with the examiners’ recommendation.

**Examiners' Rec.** – *The TA should be amended to provide for the authorizing of access to funds or other assets that were frozen via restraint orders, necessary for basic expenses and the payment of certain types of fees in accordance with S/RES/1452(2002).*

56. The authorities have cited subsection (4) of new section 14B of the TA which allows the Court in an order to freeze the funds of a designated entity to make provisions for living and legal expenses of the individual or legal entity as the case may be. While the provision does provide for the payment of basic expenses there is no reference to the requirements of S/RES/1452(2002) which specifically list basic expenses; payment for foodstuffs, rent, mortgage, medicine and medical treatment, taxes, insurance premiums etc. Additionally access for the payment of such expenses can only be granted after notification of the Committee established pursuant to 1267(1999) of the intention to authorize access to such funds and in the absence of a negative decision by the Committee within 48 hours of such notification. Given the above, this recommendation has only been partially met.

**Examiners' Rec.** - *The TA should be amended to provide for the confiscation of property used in connection with the commission of the terrorist financing offence of fund-raising under section 8 of the TA.*

57. The authorities have cited amended section 27A of the TA which provides for the freezing of property of terrorists. The section specifically allows for the freezing of the property of persons who have been charged or are about to be charged or are reasonably suspected of having committed a terrorist act detailed in section 3 and 4 of the TA. Neither sections 3 or 4 refer to the commission of the terrorist financing offence of fund raising as required in the above recommendation. As such, this recommendation remains outstanding.

**Examiners' Rec.** – *The TA should be amended to provide a mechanism where victims of offences committed under the TA are compensated consistent with Article 8 of the Terrorist Financing Convention.*

58. Section 12 of the TAA (No 2) Act 35 of 2013 amends section 55 of the TA by inserting subsection (55A) which allows for the sharing of property derived from forfeiture pursuant to the TA and the compensation of victims of offences under the Act from forfeited property. The above provision should allow for the establishment of a mechanism for compensation of victims in compliance with the examiners' recommendation.

## **Special Recommendation V**

**Examiners' Rec** - *The provision/collection of funds for an individual terrorist should be criminalized under the TA*

59. The TA has been amended in section 19 by the insertion of sub-section 3 which criminalizes the providing or collection of property for and on behalf of an individual terrorist or terrorist organization and intends that it should be used, or has reasonable cause to suspect that it may be used for the purposes of terrorism. The above provisions specifically only criminalize

the provision/collection of funds intended or suspected to be used for terrorism and not all funds collected for or on behalf of an individual terrorist as required by the recommendation. This recommendation remains outstanding. Section 9 of the TAA (No. 2) Act 35 of 2013 amends subsection (3a) of section 19 of the TA by inserting paragraph (aa) which criminalizes the collecting, providing or attempts to collect or provide or make available any property whether directly or indirectly to any terrorist organization or any person who is concerned or connected with the financing of terrorism. This provision refers to terrorist organization and persons concerned or connected with the financing of terrorism and does not include individual terrorists. As such the recommendation is still outstanding.

***Examiners' Rec.*** - *The TA should be amended to include penalties that are proportionate and dissuasive for the terrorist financing offence of fund-raising.*

60. The terrorist financing offences set out in sections 19 to 22 of the TA include the offence of fund-raising.. The penalties for offences under sections 19 to 22 of the TA consist of on summary conviction a fine not exceeding EC\$ 400,000 or imprisonment for four years or both and on conviction on indictment to a fine not exceeding EC \$1,000,000 or to imprisonment for thirty years or both. Imposition of these penalties complies with the examiners' recommendation

## **Other Recommendations**

### **Recommendation 6**

***Examiner's Rec.*** *Financial institutions should be required to have appropriate risk management systems to determine whether a potential customer, a customer or the beneficial owner is a PEP.*

***Examiner's Rec*** – *Financial institutions should be required to obtain senior management approval for establishing a business relationship with a PEP or continuing one with a consumer who becomes a PEP.*

***Examiners' Rec.*** *Financial institutions should be required to take reasonable measures to establish the source of wealth and the source of funds of customers and beneficial owners identified as PEPs*

***Examiners' Rec.*** – *Financial institutions should be required to conduct enhanced ongoing monitoring on relationships with PEPs.*

***Examiners' Rec.*** – *Grenada should undertake steps to sign the 2003 United Nations Convention against Corruption.*

61. While all of the first four recommendations above have been included in section 24(1) of the POCAMLTF Guidelines it is noted that the requirement for monitoring refers to ensuring “a process of regular monitoring of the business relationship with a politically exposed person.” The recommendation as stated above refers to “enhanced ongoing monitoring” rather than “regular monitoring”. Section 7 of POCAMLTFA Guidelines 2013 amends paragraph (d) of subsection (1) of section 24 of the POCAMLTF Guidelines by replacing “regular monitoring” with “enhanced ongoing monitoring” thereby complying with the recommendation. Grenada is a member of the Organisation of American States Convention against Corruption. Cabinet in October 2013 approved Grenada's accession to the UN Convention against Corruption. Given the above, four of the recommendations have been met and one is outstanding. .

## Recommendations 7

**Examiners' Rec.** – *Financial institutions should be fully aware and document a respondent institution's circumstances – this should include details of its business, management, regulated status and other information that may be publicly available upon request for the purposes of establishing a relationship.*

**Examiners' Rec.** - *Financial institutions should be required to have written procedures to obtain and assess the anti-money laundering procedures and CDD procedures of a respondent institution.*

**Examiners' Rec.** - *Financial institutions should be required to obtain approval from senior management to establish new correspondent relationships in all cases.*

**Examiners' Rec.** – *Financial institutions should document the respective AML/CFT responsibilities of each institution in cross-border correspondent relationships.*

**Examiners' Rec.** - *Financial institutions should be satisfied that respondent financial institutions have performed all the normal CDD obligations on customers who have access to "payable-through accounts" and can provide relevant customer identification data upon request*

62. The first four recommendations above have been incorporated in section 37 of the POCAMLTF Guidelines. Individual recommendations are addressed in subsections 37 (1) (b), (c), (d), (f), respectively. The last recommendation is set out in section 38 of the POCAMLTF Guidelines. Given the above, all recommendations have been met.

## Recommendation 8

**Examiners' Rec.** – *Financial institutions should be required to have policies in place that mitigate the misuse of technological developments by money laundering and/or terrorist financing schemes.*

**Examiners' Rec.** - *Financial institutions should be required to have written procedures and a suitably robust risk management framework that mitigates the risks associated with non-face to face transactions. Measures for mitigating risks should include specific and effective CDD procedures that apply to non-face to face customers.*

63. The first recommendation with regard to policies in place to mitigate the misuse of technological developments by money laundering and/or terrorist financing schemes is set out in section 13 of the POCAMLTF Guidelines. Requirements for dealing with non-face to face business relationships or transactions are set out in section 31 of the POCAMLTF Guidelines. There is no requirement for financial institutions to have policies to address specific risks associated with non-face to face business relationships and transactions. However, financial institutions are obliged to apply the provisions of the AMLTF Guidelines relating to identification and verification to non-face to face business relationships. Additionally, where identity is verified electronically or copies of documents are relied on in relation to a non face to face application for business, an entity or a professional shall apply an additional verification check, including the enhanced CDD measures, to manage the potential risk of identity fraud. While the above measures should serve to mitigate some of the risks associated with non-face to face relationships they do not comply with the recommendation for financial institutions to have policies to address specific risks associated with non-face to face business relationships and transactions. Section 9 of POCAMLTF Guidelines 2013 amends section 31 of the

POCAMLTF Guidelines by inserting after subsection (4) a subsection (5) requiring entities and professionals to have specific written policies and procedures, including effective customer due diligence procedures, to address risks associated with non-face to face transactions. This complies with the examiners' recommendation. Given the above, all recommendations have been met.

## **Recommendation 9**

***Examiners' Rec.*** – *Financial institutions should be required to immediately obtain from introducers the necessary information concerning certain elements of the CDD process (criteria 5.3 to 5.6).*

64. Regulation 7(1) of the AMLTFR requires the production by the introducer of satisfactory evidence of the identity of the applicant for business. While measures for introduced business are set out in section 33 of the POCAMLTF Guidelines, there are no requirements for a financial institution to immediately obtain from the introducer the elements of the CDD process as set out in criteria 5.3 to 5.6. While the requirement of regulation 7(1) of the AMLTFR would entail information as to the name, address and legal status in the case of legal persons and arrangement, there is no need to obtain information on beneficial owners, the ownership and control structure and the purpose and intended nature of the business relationship. Section 10 of POCAMLTF Guidelines 2013 amends section 33 of the POCAMLTF Guidelines by inserting after subsection (2) a new subsection (2a) which requires an entity or professional to immediately obtain from an introducer elements of the CDD or enhanced CDD process undertaken for the introduced applicant. This measure is not specific as to the elements of the CDD process that should be obtained which includes information on any beneficial owners, the ownership and control structure and the purpose and intended nature of the business relationship. Given the above this recommendation remains partially met.

***Examiners' Rec*** - *Financial institutions should be required to test agreements with third parties to ensure that CDD held satisfies the provisions of Recommendations 5 and 10. This testing should also confirm whether information can be provided by the third party without delay.*

65. The authorities refer to sub-regulations 7(4) and 7(5) of the AMLTFR which stipulates that satisfactory evidence of the identity of an applicant for business can be a written assurance from the introducer that evidence of the identity of the applicant has been obtained in accordance with identification procedures maintained by the introducer which comply with the measures equivalent to the AMLTFR and the POCAMLTF Guidelines and that such evidence will be provided upon request. However, this provision does not have a requirement to test whether the written assurance is valid. Regulation 4 of the POCAMLTFAR amends regulation 7 of the POCAMLTFR by inserting a sub-regulation (6) stating that nothing in the regulation limits the duty of the person carrying on the relevant business from testing the validity of the written assurance and satisfying himself that the CDD held by the introducer is in accordance with measures of the AMLTFR and the POCAMLTF Guidelines and that such information can be provided without delay. This measure complies with the examiners' recommendation.

***Examiners' Rec.*** – *Financial institutions should be required to satisfy themselves that the third party is regulated and supervised in accordance with Recommendations 23, 24 and 29.*

66. The authorities refer to section 33 (3)(b) of the POCAMLTF Guidelines which stipulates that financial institutions are exempted from verification of the identity of an applicant if the introducer is a regulated person, or a foreign regulated person within the meaning of the

AMLTFR. A regulated person as defined in the AMLTFR is a person who is licensed or registered to carry on a relevant business in or from within Grenada. A foreign regulated person is defined in the AMLTFR as an authority outside of Grenada which exercises supervisory functions that substantially correspond to the supervisory functions of the Anti-Money Laundering and Combating Terrorism Financing Commission. The above provision deals with exemption from verification of identity and does not require financial institutions to be satisfied that third parties are regulated in accordance with FATF Recommendations 23, 24 and 29. Section 10 of POCAMLTF Guidelines 2013 amends section 33 of the POCAMLTF Guidelines by inserting after subsection (5) a new subsection (6) which stipulates that an entity or professional has the ultimate responsibility to be satisfied that third parties are regulated in accordance with FATF recommendations. This provision complies with the examiners' recommendation.

***Examiners' Rec – Competent authorities should consider the issuance of a list of jurisdictions that adequately apply the FATF Recommendations for third parties that may operate in foreign jurisdictions.***

67. Schedule II of the POCAMLTF Guidelines is a list of recognized jurisdictions which apply or sufficiently apply the FATF Recommendations and whose anti-money laundering and terrorist financing laws are equivalent to the provisions of the AMLTFR and the AMLTF Guidelines. While section 54 of the POCAMLTF Guidelines outlines the circumstances under which the list may be used there is no indication that financial institutions should use the list for third parties operating in foreign jurisdictions. Section 14 of POCAMLTF Guidelines 2013 amends section 54 of the POCAMLTF Guidelines by inserting subsection (4a) which stipulates that entities and professionals should use the list of jurisdictions listed in Schedule 2 to evaluate third parties operating in foreign jurisdictions. Consequently this recommendation is met.

***Examiners' Rec. – Amendment to legislation or guidance to stipulate that the verification and identification of a client remains the responsibility of the financial institution, regardless of whether or otherwise it has relied on a third party to conduct the verification and identification of the client.***

68. It is noted that the section (iv) of the Explanation of section 33 of the POCAMLTF Guidelines places the ultimate responsibility for the establishing and reviewing CDD on the applicant or customer with the entity or professional. However as indicated in subsection 2(2) of the POCAMLTF Guidelines, Explanations are provided to serve as a guide and to afford clarity in better understanding the sections of the POCAMLTF Guidelines. This suggests that requirements placed in the Explanations are not legally enforceable and therefore cannot be considered mandatory. Consequently, this measure does not comply with the examiners' recommendations. Based on the above three of the examiners' recommendations have been met, one has been partially met and one is outstanding.

## **Recommendation 12**

***Examiners' Rec. - Deficiencies identified for financial institutions with regard to Recs. 5, 6, 8 to 11 are also applicable to DNFBPs. Specific recommendations in the relevant sections of this report will also apply to DNFBPs***

69. It is noted that the requirements of the AMLTFR and the POCAMLTF Guidelines are applicable to all persons who conduct "relevant business" which has been defined in the AMLTFR to include all the DNFBPs and their activities in accordance with FATF standards.

The analysis in relation to the provisions of the AMLTFR and the POCAMLTF Guidelines under the relevant sections of this report dealing with Recs. 5, 6, 8, 9 and 11 are also applicable to the DNFBPs.

**Examiners' Rec.** – *Authorities should consider specific training and or awareness programs to educate DNFBPs about AML/CFT requirements.*

70. The authorities have advised that they have submitted their training needs to the CFATF which include assistance in carrying out risk assessment of DNFBPs and training workshops for DNFBPs and Inspectors. Consequently, this recommendation remains outstanding.

**Examiners' Rec.** - *Dealers in precious metals and precious stones should be added to AML/CFT requirements in accordance with FATF standards.*

71. As noted above the requirements of the AMLTFR and the AMLTF Guidelines are applicable to all persons including all DNFBPs in accordance with the FATF standards thereby complying with the examiners' recommendation to bring dealers in precious metals and precious stones under the AML/CFT regime.

## Recommendations 15

**Examiners' Rec.** – *All financial institutions should be required to establish and maintain internal procedures, policies and controls to prevent money laundering and financing of terrorism.*

72. Regulation 3 of the AMLTFR requires relevant persons i.e. financial institutions and DNFBPs to maintain identification, record keeping and internal reporting procedures in accordance with regulations of the AMLTFR and internal controls and communication procedures which are appropriate for the purposes of forestalling and preventing money laundering. It is noted that the internal controls and communication procedures are limited to money laundering and do not include terrorist financing. This provision, therefore only partially complies with the examiners' recommendations. This requirement is elaborated in section 12 of the POCAMLTF Guidelines where an entity or a professional is required to maintain a system of internal controls which provides appropriate policies, processes and procedures for forestalling, and preventing money laundering and terrorist financing. As stated this requirement includes terrorist financing, and given the enforceable status of the POCAMLTF Guidelines it meets the requirements for compliance with FATF standards. Consequently this recommendation has been met.

**Examiners' Rec.** - *The requirement for financial institutions to develop appropriate compliance management arrangements which include at a minimum the designation of an AML/CFT compliance officer at management level should be enforceable.*

73. Regulation 13 of the AMLTFR requires relevant persons to appoint a Money Laundering Reporting Officer (MLRO) responsible for ensuring compliance by staff with legal AML/CFT requirements including guidelines. While there are provisions detailing qualifications for the appointment of a MLRO there is no requirement that the appointment should be at a management level. It is noted that subsection 12(3)(c) of the POCAMLTF Guidelines stipulates that an entity's or professional's written system of internal controls should include the designation of an individual or individuals at the level of the entity's or professional's senior management who is responsible for managing anti-money laundering and terrorist financing compliance. This requirement complies with the examiners' recommendation. As such, this recommendation has been met.

***Examiners' Rec.*** – *The requirement for AML/CFT compliance officer and other appropriate staff to have timely access to customer identification data and other CDD information, etc should be enforceable.*

74. Sub regulation 13(2)(b) provides for the MLRO to have access to all relevant information to enable him to perform the functions given to him under the Guidelines and the AMLTFR. This provision limits access only to the MLRO and does not include other appropriate staff in accordance with the examiners' recommendation. Consequently, this provision only partially complies with the recommendation. Authorities advise that an appropriate amendment to sub-regulation (2) of Regulation 13 of the AMLTFR is being drafted. Consequently this recommendation is partially met.

***Examiners' Rec.*** – *Financial institutions should be required to maintain an adequately resourced and independent audit function to test compliance with the procedures, policies and controls.*

75. Section 12(4) of the POCAMLTF Guidelines requires entities and professionals to establish and maintain an independent audit function that is adequately resourced to test compliance, including sample testing with the written system of internal controls and other provisions of the AMLTFR and the POCAMLTF Guidelines. This measure complies with the recommendation. Consequently this recommendation has been met.

***Examiners' Rec.*** - *All financial institutions should be required to train all staff on an ongoing and regular basis to ensure that employees are aware of money laundering and terrorist financing mechanisms, as well as the requirements of anti-money laundering and counter-terrorist financing laws and their obligations under these laws.*

76. Regulation 16 of the AMLTFR requires relevant persons i.e. financial institutions and DNFBPs to provide training at least once a year to all directors, management and key staff to ensure that they are aware of the AML/CFT legal requirements in the POCA , the TA, the POCAMLTF Guidelines and any other AML/CFT enactments, the relevant regional and international conventions and standards of compliance, the relevant person's manual of compliance procedures or internal controls systems, their personal and the relevant person's obligations. This provision fully complies with the examiners' recommendation.

***Examiners' Rec.*** - *The requirement for financial institution to put in place screening procedures to ensure high standards when hiring employees should be enforceable.*

77. Section 51 of the POCAMLTF Guidelines requires an entity or professional to assess the competence and probity of its or his employees at the time of their recruitment and at any subsequent change in role and subject their competence and probity to ongoing monitoring. This measure fully complies with the recommendation.

## **Recommendation 16**

***Examiners' Rec. - Deficiencies identified for financial institutions with regard to Recs. 13 to 15 and 21 are also applicable to DNFBPs. Specific recommendations in the relevant sections of this report will also apply to DNFBPs***

78. It is noted that the requirements of the AMLTFR and the POCAMLTF Guidelines are applicable to all persons who conduct "relevant business" which has been defined in the AMLTFR to include all the DNFBPs and their activities in accordance with FATF standards. The analysis in relation to the provisions of the AMLTFR and the POCAMLTF Guidelines under the relevant sections of this report dealing with Recs. 13, to 15, and 21 are also applicable to the DNFBPs.

***Examiners' Rec. – Authorities should consider specific training and/or awareness programs to educate DNFBPs about AML/CFT requirements.***

***Examiners' Rec. – Dealers in precious metal and precious stones should be subject to AML/CFT requirements in accordance with FATF standards***

79. The above recommendations have been addressed under Recommendation 12 in this report. As noted the recommendation dealing with training remains outstanding while the other recommendation has been met.

## **Recommendation 18**

***Examiners' Rec. – Legislative amendments should be effected to prohibit the establishment and licensing of a shell bank. The amendment should also require an entity licensed under the Offshore Banking Act 2003 to have its mind and management within Grenada.***

80. Sections 3 and 4 of the Banking (Amendment) Act, 2013 enacted in October 2013 amends sections 2 and 5 of the Banking Act to prohibit the granting of a licence to a shell bank. Similarly sections 3 and 4 of the Offshore Banking (Amendment) Act 2013 enacted in October 2013 amends sections 2 and 13 of the Offshore Banking Act to also prohibit the granting of a licence to a shell bank. While the above provisions effectively prohibits the licensing of shell banks there is no requirement for an entity licensed under the Offshore Banking Act to have its mind and management within Grenada as required by the recommendation Consequently this recommendation has only been partially met.

***Examiner Rec. – Amend legislative provisions to prevent financial institutions from entering into or continuing correspondent relationships with shell banks.***

81. Subsection 36(1)(a)(i) of the POCAMLTF Guidelines requires that an entity shall not enter into or maintain a correspondent relationship with a shell bank. This measure complies with the recommendation.

***Examiners' Rec. - Amend legislation to require financial institutions to satisfy themselves that respondent financial institutions in a foreign country do not permit their accounts to be used by shell banks.***

82. Subsection 37(1)(a) of the POCAMLTF Guidelines requires that a bank should not enter into or maintain a relationship with a respondent bank that provides correspondent banking services to a shell bank. It is noted that the requirement is only applicable to banks while the examiners' recommendation stipulates financial institution. Section 12 of POCAMLFTA Guidelines 2013 amends section 37 of the POCAMLTF Guidelines by inserting the words "or

financial institution” after wherever the word “bank” occurs in the section. This extends the requirement to all financial institutions as required by the recommendation. As such, this recommendation has been met.

## Recommendations 19

*Examiners’ Rec. - Competent authorities should consider the feasibility and utility of implementing a system where financial institutions report transactions in currency above a prescribed threshold to a centralised national authority.*

83. On July 4 2011, Cabinet directed that the FIU be designated as the authority to which every financial institution will be required to report all currency transactions above the threshold of EC\$50,000. Section 5 of the POCAMLTF Guidelines 2013 amends subsection (7) of section 20 of the POCAMLTF Guidelines requiring all employees to report all transactions of EC\$50,000 and above or equivalent to the financial institution’s Reporting Officer who is then required to report the transactions to the FIU. This requirement complies with the examiners’ recommendation.

## Recommendation 21

*Examiners’ Rec. – Mandatory requirements should be imposed on financial institutions to pay special attention to business relationships and transactions with persons from or in countries which do not or insufficiently apply the FATF Recommendations.*

84. Subsection 54(1) of the POCAMLTF Guidelines requires every entity and professional to pay special attention to a business relationship and transaction that relates to a person from a jurisdiction which the AMLTF Commission considers does not apply or insufficiently applies the FATF Recommendations with respect to money laundering and terrorist financing. The AMLTF Commission provides a list of countries which it recognizes as applying the FATF Recommendations in Schedule 2 of the POCAMLTF Guidelines. It is therefore assumed that countries not listed in Schedule 2 will be covered by the requirement of section 54(1) of the POCAMLTF Guidelines. Consequently, this recommendation has been met.

*Examiners’ Rec. – Effective measures should be put in place to ensure that financial institutions are advised of concerns about the weaknesses in the AML/CFT systems of other countries.*

85. Subsection 54(5) of the POCAMLTF Guidelines provides for the AMLTF Commission to issue from time to time advisory warnings to entities and professionals advising about the weaknesses in the anti-money laundering and terrorist financing systems of other jurisdictions. The FATF Public Statements in February and June 2013 were forwarded to the Ministry of Finance and GARFIN. The statements were placed on the Ministry of Finance website and e-mailed to the banks and some other companies/institutions/professionals while GARFIN emailed the statements to all credit unions. No information as to the continuing compliance with the recommendation with regard to advising of FATF and CFATF Public Statements to financial institutions has been provided for this report. As such, this recommendation is partially outstanding..

***Examiners' Rec.*** - Financial institutions should be required to examine transactions with no apparent economic or visible lawful purpose from countries which do not or insufficiently apply the FATF Recommendations and make written findings of such available to assist competent authorities.

86. Section 4 of POCAMLTF Guidelines 2013 inserts sub-paragraph (ha) in subsection (2) of section 15 of the POCAMLTF Guidelines requiring an entity or professional to examine transactions with no apparent economic or visible lawful purpose including the background and purpose of such transactions from countries which do not or insufficiently apply the FATF Recommendations and make written findings of such available to assist competent authorities. The measure complies with the examiners' recommendation.

***Examiners' Rec.*** - Authorities in Grenada should be empowered to apply appropriate counter-measures where a country continues not to apply or insufficiently apply the FATF Recommendations.

87. Regulation 7 of POCAMLTFAR amends Regulation 15 of the POCAMLTFR by inserting 15A which provides for competent authorities to direct entities and professionals to institute a range of counter-measures against persons from countries which continue not to apply or insufficiently apply the FATF Recommendations. The competent authorities include the FIU, GARFIN and the AMLCTF Commission. This provision complies with the recommendation. Given the above this Recommendation has one examiners' recommendation partially outstanding.

## **Recommendation 22**

***Examiners' Rec.*** - The requirement for financial institutions to ensure that their foreign branches and subsidiaries observe anti-money laundering and counter terrorist financing measures consistent with Grenada should be enforceable.

88. Subsection 55(1) of the AMLTF Guidelines requires an entity regulated in Grenada to ensure that its branches, subsidiaries or representative offices operating in foreign jurisdictions observe standards at least equivalent to those of the AMLTFR and the POCAMLTF Guidelines. This measure complies with the recommendation.

***Examiners' Rec.*** - Financial institutions should be required to pay particular attention to foreign branches and subsidiaries in countries which do not or insufficiently apply the FATF Recommendation to ensure they observe measures consistent with home country requirements and the FATF Recommendations.

89. Subsection 55(2) of the POCAMLTF Guidelines requires that an entity shall in particular, ensure that its branches, subsidiaries or representative offices operating in foreign jurisdictions which do not or which insufficiently apply anti-money laundering and terrorist financing standards equivalent to those of the AMLTFR and the POCAMLTF Guidelines observe the requirements of the AMLTFR and the POCAMLTF Guidelines. This requirement does not include the FATF Recommendations as set out in the examiners' recommendation. Section 15 of POCAMLTF Guidelines 2013 amends subsection (2) of section 55 of the POCAMLTF Guidelines by inserting a clause to extend the above requirements to include the FATF Recommendations. Consequently, this recommendation is met.

***Examiners' Rec.*** - Branches and subsidiaries of financial institutions in host countries should be required to apply the higher standard where minimum AML/CFT requirements of the home and host countries differ.

90. Subsection 55(3) of the POCAMLTF Guidelines requires an entity to ensure that its branches, subsidiaries or representative offices observe the higher standards where the established standards of compliance under Grenada laws, rules or policies differ from those of the jurisdictions where the branches, subsidiaries or representative offices are located. This measure complies with the recommendation.

***Examiners' Rec.** - Financial institutions should be required to inform their home supervisor of when a foreign branch or subsidiary is unable to observe appropriate anti-money laundering and counter-terrorist financing measures because it is prohibited by the host country's laws, regulations or other measures.*

91. Subsection 55(5) of the POCAMLTF Guidelines requires an entity to notify the FIU and the AMLTF Commission in writing if any of its branches, subsidiaries or representative offices operating in foreign jurisdictions is unable to observe appropriate anti-money laundering and terrorist financing measures because such observance is prohibited by the laws, policies or other measures of the foreign jurisdiction. This measure complies with the recommendation. Give the above, Grenada may be deemed to be fully compliant with respect to this Recommendation.

#### **Recommendation 24**

***Examiners' Rec.** - The authorities should designate a competent authority with the responsibility for monitoring and ensuring compliance of DNFBPs with AML/CFT requirements*

92. As noted in a previous report section 9 of the AMLTF Guidelines imposed on the AMLTF Commission the duty to monitor compliance by its licensees and other persons who are subject to compliance measures, with the POCAMLTF Guidelines and any other enactments relating to money laundering and terrorist financing as may be prescribed by the POCAMLTF Guidelines. Additionally, the FIU was responsible for monitoring compliance of persons other than the licensees of the AMLTF Commission. The authorities advised in the last report that the AMLTF Commission and the FIU will be responsible for the supervision and monitoring of DNFBPs after the necessary assistance and training is sourced. However since the AMLTF Commission did not have a licensing function, the subsection was amended. Section 3 of POCAMLTF Guidelines 2013 amends subsection (1) of section 9 of the POCAMLTF Guidelines to require the AMLTF Commission to monitor compliance by an entity, professional or person who is subject to the Guidelines with all ML/TF enactments and the Guidelines. This amendment as worded makes the AMLTF Commission responsible for monitoring the compliance of all financial institutions including the DNFBPs. This provision complies with the examiners' recommendation

***Examiners' Rec.** - Dealers in precious metals and precious stones should be added to AML/CFT requirements in accordance with FATF standards.*

93. As noted under Recommendation 12 the requirements of the AMLTFR and the POCAMLTF Guidelines are applicable to all persons including all DNFBPs in accordance with the FATF standards thereby complying with the examiners' recommendation to bring dealers in precious metals and precious stones under the AML/CFT regime.

#### **Recommendation 30**

94. With regard to the first examiners' recommendation concerning the consideration of providing additional financial and technical resources to law enforcement agencies, the authorities advise that during 2012 and 2013 the FIU received technical and financial support

from the governments of the United States and the United Kingdom through their regional embassies and also from the Eastern Caribbean Financial Investigative Advisory Team (ECFIAT). Details on the specifics of the technical and financial support should be provided.

95. In relation to the recommendation requiring the reviewing of measures in place for ensuring that persons of high integrity and good moral character are recruited into the Royal Grenada Police Force (RGPF), and that there is continuous monitoring of professionalism, integrity and lifestyle, a previous report noted the various processes and procedures such as an initial vetting and screening process, required adherence to a Code of Conduct and provisions of the Police Act and the existence of formal discipline procedures for breaches. While the measures should enhance the recruitment of persons of high integrity, information on the number of police officers in the RGPF and those subject to formal disciplinary procedures and charged with criminal activity on a yearly basis for the last three years would aid in assessing implementation.

96. With regard to training, the examiners' recommendation required that the training needs of the Office of the Director of Public Prosecutions (ODPP) as well as the RGPF be reviewed. The authorities advise that the RGPF sent one (1) officer to each of the following; a sub-regional workshop on cybersecurity from November 11 – 13 2013 in Uruguay, the Commonwealth project on capacity building in combating terrorism, counter terrorism national training program, the capacity building training course for state parties in the Caribbean sub-region on October 14 – 18, 2013 and the CFATF assessor training workshop in Jamaica in January 2014. No information for training provided to the ODPP has been submitted for this report.

97. The last recommendation required the authorities to consider providing additional staff and resources to the Attorney General's office. The authorities advise that the Attorney General's Office is adequately staffed and executes its responsibilities to all Government ministries, agencies and departments in a timely manner. While the above measures result in substantial compliance with the examiners' recommendations, information as indicated above needs to be submitted at each report for verification of continuing compliance.

### **Recommendation 31**

***Examiners' Rec.** - The Supervisory Authority should be given the legal authority to bring together the various authorities on a regular basis to develop and implement policies and strategies to tackle ML and TF. The provision of public education on issues of ML and TF should be added to their responsibilities.*

98. Section 33 of POCA 2012 creates a Joint Anti-Money Laundering and Terrorist Financing Advisory Committee (the Committee) which shall have not less than seven persons and not more than fourteen who shall have the responsibility for making recommendations to the Anti-Money Laundering and Combating Terrorism Financing Commission (Formerly known as the Supervisory Authority in the previous act POCA 2003 now repealed), on initiatives for the prevention and detection of ML/TF activities. Section 63 of POCA 2012 creates the Anti-Money Laundering and Combating Terrorism Financing Commission (the Commission) whose members consist of:

- a) The Attorney General
- b) The Permanent Secretary Ministry of Finance
- c) The Director of Public Prosecutions

- d) The Permanent Secretary of the Ministry responsible for the Police
- e) The Commissioner of Police
- f) The Chairman of the Grenada Authority for the Regulation of Financial Institutions
- g) The Comptroller of Customs
- h) The National Security Advisor

99. In addition to the above the Commission will also include such other persons as the Minister may from time to time appoint. A chairman will be appointed by the Minister from any of the members of the Commission. The main functions of the Commission will comprise of advising the Minister of Finance in relation to the detection and prevention of money laundering in Grenada, issuing guidance as to compliance with the POCA 2012 and attendant regulations, advising the Minister of Finance as to the participation of Grenada in the international effort against money laundering. It is noted that while the activities of the Committee include terrorist financing, those of the Commission do not. The authorities have advised that an amendment to POCA 63(1) (a) and (c) has been drafted to rectify the inconsistency between the activities of the Joint Committee and the Commission. Section 63 (1) of POCA 2012 was amended by the Proceeds of Crime (Amendment) Act 2013 by the insertion of a new paragraph requiring the Commission to conduct public education on issues of money laundering and terrorism financing. Section 5 of the POCAA No. 2, 2013 enacted in December 2013 amends sub-paragraphs (a) and (c) of subsection (1) of section 63 of POCA to extend the functions of the Commission to include terrorist financing. While the above provision would result in full compliance with the examiners' recommendation, information on the activities of both the Commission and the Committee should be submitted to demonstrate continuing compliance.

100. In addition to the above, the authorities have advised that Cabinet recently approved a technical working group on AML/CFT issues consisting of senior public sector officials knowledgeable in ML/TF matters from the RGPF, Customs, Airport Authority, Inland Revenue Department, ODPP and the FIU. The aim of the group is to foster a strong AML/CFT regime through co-operation between domestic, law enforcement and regulatory authorities and to collectively provide an effective mechanism for dialogue on matters pertaining to the forestalling, detection and prevention of ML/TF and proliferation of drugs. A MOU was expected to be signed by all parties in March 2014.

### **Recommendation 32**

101. With regard to the Supervisory Authority establishing a secretariat to monitor the implementation of Grenada's AML/CFT regime, the authorities advised in the previous report that an Executive Director was appointed on January 2, 2013 within the Office of AML/CFT Commission. Plans to build capacity in terms of staffing were to be phased in as work intensified. No information on this matter was submitted for this report.

102. With regard to the maintenance of statistics on spontaneous referrals made by the FIU, the authorities advise that during the period August 2013 to January 2014 the FIU made five (5) requests for information, two (2) international and two (2) regional. Two (2) of the requests are still pending. No international requests for information were received during the period. Four (4) requests for information from Egmont FIUs were received with two (2) completed while seven (7) requests were sent to Egmont FIUs with five (5) completed. The FIU received eighty-two (82) suspicious activity reports from August 2013 to January 2014 and obtained two (2)

production orders, one (1) restraint order and six (6) cash detention orders. The above demonstrates maintenance of statistics by the FIU.

103. With regard to the maintenance of comprehensive statistics on mutual legal assistance (MLA) and extradition requests, there were no extradition requests during the period August 2013 to January 2014 and only one (1) MLA request which is still pending. Information as to the nature of the request, the predicate offence involved and time taken to respond should be submitted to demonstrate comprehensiveness. As such this recommendation is partially met.

104. With regard to comprehensive statistics on all aspects of the operations of Customs and Excise, the authorities advise that for the period August 2013 to January 2014, there were no cash seizures. There were three (3) contraband seizures, joint operations with the FIU, involving fire arms, canvas sails and documents. Additionally, there were two (2) successful joint operations with the Coast Guard and the Drug Squad of the RGPF due to drug threats to the borders. During the same period Customs and Excise received two (2) MLA requests one (1) of which was completed. Finally, one officer of Customs and Excise attended a cash courier workshop hosted by the United Nations Office on Drug and Crime (UNODC) in Antigua from October 30 to November 1, 2013. The above complies with the examiners' recommendation.

### **Recommendation 33**

105. As noted in the previous follow-up report, all of the examiner's recommendations were outstanding. The first recommendation requires that appropriate measures be taken to ensure that bearer shares issued under the International Companies Act (ICA) are not misused for money laundering. The authorities have cited section 3 of the International Companies (Amendment) (No. 2) Act, 2013 enacted in November 2013 which inserts section 27B after section 27 of the ICA. Section 27B prohibits bearer share agents from using bearer shares issued under the ICA for the purpose of money laundering and terrorist financing. This provision, while criminalizing the misuse of bearer shares issued under the ICA for ML and TF, does not impose measures to prevent the misuse. The most effective measure is to require the immobilization of the bearer shares by obligating the bearer share agents to maintain custody of the bearer shares and also retain current information on the identity of the owners. Given the above, this recommendation remains outstanding.

106. With regard to the recommendation that there should be statutory requirements for the provision of information on the beneficial ownership of companies, the authorities advised that section 3 of the Companies (Amendment) Act 2014 enacted in December 2013 amends section 344 of the Companies Act to require the provision of ownership information on a company to the Office of the Registrar of Companies and Intellectual Property. However, the examiners' recommendation was specific that the information should be beneficial ownership information and not just ownership information. Consequently this recommendation remains outstanding.

107. The authorities advised in a previous follow-up report in relation to the recommendation that adequate resources should be delegated to the functions of the Registrar of Companies and Intellectual Property that the Registrar is adequately staffed with ten officers. This is a definite improvement from the time of the mutual evaluation when only one clerk was assigned to deal with company incorporations. Presently, the process of automation of companies' names is continuing to allow for the sharing of information with various government bodies. The Office of the Registrar of Companies and Intellectual Property also deals with trademarks, patents, registration of companies and business names. Amendments were made to the Company Regulations and enactments with regard to companies were made during 2011. The above measures should enhance the functions of the Registrar of Companies and Intellectual Property.

The number of companies incorporated in 2011 and 2012 were one hundred and thirty-five (135) and one hundred and twenty-three (123) respectively and the length of time to incorporate a company was approximately three (3) days. At present, the authorities advise that one hundred and sixty-four (164) companies were incorporated during the period August to January 2014. These figures would suggest that the resources are adequate for the functions of the Registrar.

108. With respect to the recommendation that a mechanism be developed to ensure the timely filing of annual returns as well as the timely access by competent authorities and other relevant parties to the current information on companies' beneficial ownership, the authorities advised in a previous follow-up report that compliance Letters were sent to law firms from the Registrar of Companies (dated 2/12/11) pointing out the inefficiencies as regards to the filing of annual returns on behalf of companies which they represent and the risk of being struck off the register pursuant to SRO 5 of 2009.

109. The second step in the form of a notice to Company Directors reminding them of their statutory obligations to file Annual Returns in accordance with the Companies Act was placed in the Government Gazette on January 10, 2014. The Registrar of Companies advised that letters to companies as a follow-up would be sent before any further action is taken. The Registrar of Companies has advised that the response to the notice in the Government Gazette has been positive. The process of sending individual letter to companies who have not filed Annual Returns is ongoing. Companies are filing their returns while others have been writing to inform that the said companies are no longer in business. Information as to whether there has been any imposition of sanctions for non-filing should be submitted to demonstrate effectiveness. While the above measures should improve timely filing of annual returns, the recommendation also requires measures for ensuring timely access by competent authorities and other relevant parties to the current information on companies' beneficial ownership.

110. The last recommendation requiring legislative amendments to require the timely notification of any changes in the beneficial ownership of companies along with changes to other particulars. Section 3 of the Companies (Amendment) Act 2014 enacted in December 2013 amends section 344 of the Companies Act to require the submission of an annual update on the ownership information of an external company to the Registrar of Companies and Intellectual Property. The above provision is limited to external companies and ownership information rather than changes in beneficial ownership of all companies. As such, this examiners' recommendation remains outstanding. As a result of the above measures, one of the recommendations has been met, another has been partially met while the remaining three are still outstanding.

#### **Recommendation 34**

111. The situation remains unchanged from the follow-up report of May 2012. With regard to the recommendation for the authorities to put in place measures for the registration and monitoring of local trusts in accordance with FATF requirements, the authorities had advised that a National Registry and a Registrar of Companies was appointed under the Companies Act. However, no information as to the exact functions of the National Registry or the Registrar of Companies in relation to local trusts under the Companies Act was provided. Additionally, the authorities advised that section 17 of the International Trusts Act 1996 provides for the registration and monitoring of local trusts. However, section 17 refers specifically to international trusts rather than local trusts. The authorities have referred to section 30 of the POCAMLTf Guidelines requiring the identification and verification of the trustee, settlor or protector of a trust by an entity or professional. However, the recommendation refers specifically

to the registration and monitoring of trusts while section 30 deals with trusts establishing business relationships with financial institutions.

112. With regard to the recommendation that the authorities should consider including adequate and accurate information on the beneficial ownership and control of trusts as part of the registration process for local trusts, the authorities advise that section 30 of the POCAMLTF Guidelines provides for the identification and verification of the trustee, settlor or protector of the trust. However, the above measure is applicable to financial institutions and DNFBPs when establishing or providing trust services and do not address the requirement of the examiners' recommendation as part of the registration process for local trusts. The authorities have advised that the recommendation is being reviewed. Consequently the examiners' recommendations remain outstanding.

### **Special Recommendation VI**

113. As reported in a previous Follow-Up Report except for the recommendation requiring money value transfer service operators to maintain a current list of their agents which has to be verified, all recommendations have been complied with substantially.

### **Special Recommendation VII**

114. The examiners' recommendation required the implementation of enforceable measures in accordance with the requirements of SR. VII and the establishment of a regime to effectively monitor the compliance of financial institutions. Assessment of compliance with this recommendation in the previous report was based on a consideration of the deficiencies identified in the rating factors for Special recommendation VII as follows:

**Rating Def** - *No requirement for ordering financial institutions to obtain and maintain full originator information for all wire transfers of US\$1,000 and above*

**Rating Def** - *No requirement for ordering financial institutions to include full originator information along with cross-border and domestic wire transfers*

**Rating Def** - *No requirement for intermediary and beneficiary financial institutions in the payment chain to ensure that all originator information that accompanies a wire transfer is transmitted with the wire transfer.*

**Rating Def** - *No requirement for beneficiary financial institutions to adopt effective risk-based procedures for identifying and handling wire transfers that are not accompanied by complete originator information.*

115. As indicated in the last report measures in the POCAMLTF Guidelines addressed completely three of the deficiencies listed above. The outstanding deficiency is no requirement for beneficiary financial institutions to adopt effective risk-based procedures for identifying and handling wire transfers that are not accompanied by complete originator information. Section 13 of POCAMLTF Guidelines 2013 amends section 42 of the POCAMLTF Guidelines by repealing subsection (5) and replacing it with a provision requiring a payment service provider of a payee to adopt effective risk-based measures for identifying and handling all transfer of funds that are not accompanied by complete originator information. This measure fully addresses the above deficiency. The above provision improves the level of compliance with this Recommendation. The main outstanding requirement is the establishment of a regime to

effectively monitor the compliance of the financial institutions with the above measures. As such, this recommendation remains partially outstanding.

### **Special Recommendation VIII**

116. As indicated in a previous follow-up report the recommendation for the mandatory registration of non-profit organizations (NPOs) remains outstanding. While sections 326-327 of the CA allow for the incorporation of NPOs, it is not mandatory. Additionally, the approval of the Attorney General is essential only to determine whether the company qualifies for the status of a non-profit company. Section 3 of the Companies (Amendment) Act, 2013 which was enacted in November 2013 amends section 328 of the Companies Act by inserting subsection (4a) requiring non-profit companies to be registered in accordance with the provisions of the Companies Act. This measure complies with the examiners' recommendation.

117. Other recommendations include a review of the adequacy of laws governing NPOs, outreach to the NPO sector, an effective NPO supervisory regime, record keeping and retention requirements and development of investigative expertise in NPOs. In relation to a review of the adequacy of the laws and outreach to the NPO sector, the authorities advise that under section 5 of the POCAMLTF Guidelines, provisions for the establishment of internal control systems, customer due diligence measures, maintaining record keeping requirements and providing employee training are also applicable to charities and NPOs. Furthermore, Schedule I of the POCAMLTF Guidelines details best practices which charities and NPOs are also required to implement. Additionally, educational sessions were conducted by the AML/CFT Commission during the fourth quarter of 2013. In November 2013, a forum targeted at churches was held with seventy (70) persons attending. Emphasis was placed on compliance with AML/CFT Guidelines, sensitization on the vulnerability of churches to ML/TF and education on new ML/TF trends and typologies. The imposition of AML/CFT requirements on NPOs would suggest some review of the adequacy of the laws. The holding of the forum is in accordance with outreach to the NPO sector. The above are in compliance with the examiners' recommendations. There is need to submit in future reports information on continued compliance with the recommendation for outreach to the NPO sector.

118. With regard to the recommendations for an effective NPO supervisory regime, record keeping and retention requirements, the authorities indicate that subsection 10 (2) of the POCAMLTF Guidelines stipulates that the Commission as part of its prudential inspection of an entity that it regulates which includes entities that are not regulated by GARFIN including charities and NPOs must assess the AML/CFT systems for compliance with applicable laws, regulations and guidelines. While this provision designates the Commission with the responsibility for checking compliance with AML/CFT legal requirements, reference to the Commission's prudential inspections suggests that the Commission also has prudential responsibilities. However, there is no provision in the POCA which establishes the Commission, granting such responsibilities to the Commission. While the above measure establishes a legal framework for a supervisory regime, information has to be presented to demonstrate the operation of an effective NPO supervisory regime. The authorities have advised that the NPO sector will be regulated before the end of 2014.

119. With regard to record keeping and retention requirements, as already noted section 5 of the POCAMLTF Guidelines effectively requires NPOs to comply with the record keeping obligations of the Guidelines which are set out Part VI of the POCAMLTF Guidelines. These requirements comply with the FATF standards. The recommendation for the development of investigative expertise in NPOs remains outstanding. Given the above four (4) recommendations have been met, one (1) has been partially met and one (1) remains outstanding.

### **Special Recommendation IX**

120. As noted in previous follow-up reports there has been substantive implementation of the examiners' recommendations. With regard to this follow-up report the authorities advise in relation to the recommendation for customs official to be trained in the use of passenger screening systems to analyze behavior, appearance and communication style of potential currency carriers that one officer attended a cash courier workshop hosted by the United Nations Office on Drug and Crime (UNODC) in Antigua from October 30 to November 1, 2013.

### **III. Conclusion**

121. The enactment of several statutes during the last two months of 2013 has substantially enhanced Grenada's level of compliance with a number of Recommendations. Grenada is now fully compliant in Recs. 1, 7, 8, 13, 19, 22, 24, and SR.IV. Additionally, compliance has been improved in Recs. 5, 6, 9, 18, 21, 35, SR.I, SR. II, SR. III, and SR. VII. Figures have been presented to demonstrate implementation on the part of the law enforcement authorities with regard to production and restraint orders, spontaneous referrals made by the FIU, excise operations including records of seizures and extradition requests.

Grenada's level of compliance in the Key and Core Recommendations has improved with Recs. 1, 13 and SR. IV being fully compliant. Additionally, compliance has improved in Recs. 5, 35, SR. I, SR. II, and SR. III. At present Grenada is in the first stage of enhanced follow-up. Given the above, Grenada should remain in enhanced follow-up and be required to report to the next Plenary in November 2014 on measures to implement recommendations in the MER.

12. DNFBP – R.5, 6, 8-11	NC	<ul style="list-style-type: none"> <li>Dealers in precious metals and precious stones are not included in the AML/CFT regime</li> <li>Deficiencies identified for financial institutions with regard to Recs. 5, 6, 8 to 11 are also applicable to DNFBPs.</li> <li>Lack of awareness of requirements by DNFBP resulting in ineffective implementation of AML/CFT obligations</li> </ul>	<ul style="list-style-type: none"> <li>Deficiencies identified for financial institutions with regard to Recs. 5, 6, 8 to 11 are also applicable to DNFBPs. Specific recommendations in the relevant sections of this report will also apply to DNFBPs. Rec 12 Para 59, 60, 61)</li> </ul>	<p>The Proceeds of Crime (Anti-money-laundering) Guidelines 2012 refers to DNFBP's. DNFBP's are construed in its definition as Entities. The meaning of "Entity" as outlined in the Guidelines is, a person in a relevant business within the meaning of regulations 2(1) of the Anti-money Laundering and Terrorism Financing Regulations 2012. It includes a person that is regulated by the Commission by virtue of the Proceeds of Crime Act and any other enactment; or a non-financial business designated by the Commission.</p> <p>Additionally, Section 4 of the Guidelines, under "General Application" seeks to address this recommendation. Regulated and non-regulated entities are clearly defined. Further, the POCA empowers the Commission to designate other businesses which are considered vulnerable to activities of money laundering and terrorist financing and thus fall within the definition of entity.</p> <p>The Regulations captures the entire host of relevant businesses (as required by FATF Recommendations) under Regulation 1. Sub-regulation (k) specifically lists the business of dealing in jewelry, precious metals or precious stones when such transactions involves</p>

			<ul style="list-style-type: none"> <li>• Authorities should consider specific training and/or awareness programs to educate DNFBPs about AML/CFT requirements</li> </ul>	<p>accepting a cash payment of fifteen thousand dollars or more or the equivalent in any other currency. Provision in the Regulations and Guidelines are also applicable to Recommendations 5,6,8-11</p> <p><u>UPDATED INFORMATION - JANUARY 2014:</u>Resolution giving legal effect to the Guidelines SRO 6 of 2012 was passed by the House of Representatives on 28/5/13</p> <p>The Authority is aware that specific training is required to plan and effectively administer education programs and as such, Grenada has submitted its list of training needs to the CFATF for consideration. The list also includes assistance in carrying out risk assessment of DNFBP's; and training workshops for DBFBP's and Inspectors.</p> <p>A workshop for DNFBPs was held on July 9 &amp; 10, 2012. There was also radio and television programmes and interviews on the importance of AML/CFT Compliance</p> <p>Training Workshop was also held on July 11-13, 2012, for prospective Supervisors on carrying out effective on-site examinations.</p> <p>The funding for both Workshops was provided by CFATF and the Economic Partnership Agreement (EPA), Ministry of Finance and European Development Fund (EDF).</p> <p><u>UPDATED INFORMATION - JANUARY</u></p>
--	--	--	--	---

				<p><u>2014 : Aug 2013-Jan 2014</u></p> <p>In 2013, Grenada continued its education campaign with the DNFBP's on building AML Awareness and encouraging compliance before it can begin to regulate the sector. On 14<sup>th</sup> November, 2013, a forum targeting churches was held, at least 70 persons attended. Emphasis was placed on compliance with the AML Guidelines, and sensitization of them on the vulnerability of churches to become easy targets to ML/TF, and to educate on new trends and typologies now existing.</p> <p>An amendment was effected in November 2013, Act No. 32 was passed in the House of Representatives, giving effect to the mandatory registration of NPO's. (See copy attached)</p> <p>In January 2014, a forum was held with Real Estate Agents, Accountants and Accounting Firms on Compliance with the AML/CTF Guidelines.</p> <p>Compliance forum was held with Credit Unions on 5<sup>th</sup> December, 2013, advising them on their duty to appoint compliance officers in accordance with the Guidelines. To date 95% have complied.</p> <p>Legislative machinery is now in place through the Regulations and Guidelines which now include Dealers in precious metals and precious stones. Thus subjecting them to AML/CFT requirements in accordance with FATF Standards.</p>
--	--	--	--	---

			<ul style="list-style-type: none"> <li>Dealers in precious metals and precious stones should be subject to AML/CFT requirements in accordance with FATF standards Rec 12 Para 61</li> </ul>	<p>Parliament was dissolved and Grenada held general elections on 19<sup>th</sup> February, 2013. A timeline cannot be presently ascertained as to the opening date of Parliament however all amendments will be prepared in readiness.</p> <p>This would address a number of the comments under this recommendation.</p> <p>The AMLTF Guidelines were passed in Parliament by negative resolution</p> <p>Resolution giving legal effect to the Guidelines SRO 6 of 2012 was passed by the House of Representatives on 28/5/13</p> <p><u>UPDATED INFORMATION : Aug 2013-Jan 2014</u></p> <p>A Compliance forum for Dealers in precious metals and precious stones is scheduled to take place within the 1<sup>st</sup> Quarter, 2014.</p>
