BARBADOS – TWELFTH FOLLOW-UP REPORT

I. Introduction

1. This report is the twelfth follow-up report by Barbados to the Caribbean Financial Action Task Force (CFATF) Plenary on the measures taken to implement the recommended action listed in the third mutual evaluation report (MER) of Barbados which was adopted in May 2008. Barbados has submitted eleven previous follow-up reports in May and October 2009, May and November 2010, May and November 2011, May and November 2012, May and November 2013 and May 2014 respectively. In accordance with present procedures the following is a report on measures taken by Barbados since May 2014 to deal with the recommended actions in those Financial Action Task Force (FATF) Recommendations rated partially compliant (PC) or non-compliant (NC). Information on measures taken since the Mutual Evaluation are outlined in Annex 1 of this report.

2. Barbados received ratings of PC or NC on nine (9) of the sixteen (16) Core and Key Recommendations and largely compliant (LC) or compliant (C) on the remaining seven (7) Core and Key Recommendations as follows:

Table 1: Ratings of Core and Key Recommendations

Rec.	1	3	4	5	10	13	23	26	35	36	40	I	II	III	IV	V
Rating	LC	PC	PC	PC	NC	LC	PC	LC	LC	PC	LC	PC	C	PC	LC	PC

3. With regard to the other non-core or key Recommendations, Barbados was rated partially compliant or non-compliant on eighteen (18), as indicated below.

Table 2: Non Core and Key Recommendations rated Partially Compliant and Non-Compliant

Partially Compliant (PC)	Non-Compliant (NC)
R. 6 (Politically exposed persons)	R. 12 (DNFBP – R.5,6,8-11)
R. 8 (New technologies & non face-to-face business)	R. 16 (DNFBP – R.13-15 & 21)
R. 9 (Third parties and introducers)	R. 21 (Special attention for higher risk countries)
R. 11 (Unusual transactions)	R. 24 (DNFBP – regulation, supervision and monitoring)
R. 14 (Protection & no tipping off)	SR. VI (AML requirements for money value transfer services)
R. 15 (Internal controls, compliance & audit)	
R. 22 (Foreign branches & subsidiaries)	
R. 25 (Guidelines & Feedback)	
R. 30 (Resources, integrity and training)	

R. 33 (Legal persons – beneficial owners)	
R. 34 (Legal arrangements – beneficial owners)	
R. 38 (MLA on confiscation and freezing)	
SR. VII (Wire transfer rules)	

4. The following table is intended to provide insight into the size and risk of the main financial sectors in Barbados.

**Table 3: Size and integration of Barbados' financial sector
As at June, 2014**

		Banks (Commercial) US\$000's	Other Credit Institutions (Deposit Taking) US\$000's	Securities (Mutual Funds including sub- funds) US\$000's	Insurance US\$000's	TOTAL US\$'000's
Number of institutions	Total #	6	42	26	23	97
Assets	US\$000's	6,166,454	862,045,798	2,111,126,171	1,546,108,307	4,524,668,855
Deposits	Total: US\$000's	4,283,364	717,714,267.	N/A	N/A	721,997,631
	% Non-resident	6.4% of deposits	4.2%	N/A	N/A

	#Subsidiaries abroad	3	N/A	N/A	2	5

** Foreign owned refers to the complete or majority (>50%) ownership by companies whose headquarters are not in Barbados

Summary of progress made by Barbados

5. As noted in previous follow-up reports, the enactment of various pieces of legislation in particular the Money Laundering and Financing of Terrorism (Prevention and Control) Act

(MLFTA 2011) resulted in substantial improvement in the level of compliance with the examiners' recommendations i.e. Recs. 3, 4, 5, 10, 12, 14, 15, 16, 23, 33, 36, 38, SR I, SR V which includes eight (8) key and core Recommendations. Additional measures improved the level of compliance of Recs. 6, 8, 9, 11, 21, 22 and 40. Some of the measures included the establishment of the Financial Services Commission (FSC) which issued the Anti-Money Laundering/Combating Terrorist Financing (AML/CFT) Guidelines in October 2012. In the report of May 2013, as a result of minimal improvement in the level of compliance of outstanding Recommendations, Barbados was placed in the first stage of enhanced follow-up.

6. In the follow-up report of November 2013 it was noted that Barbados fully complied with five Key and Core Recommendations (Recs. 3, 4, 10, 40 and SR. IV), and there were ten (10) Key and Core Recommendations (Recs. 1, 5, 13, 23, 26, 35, 36, SR. I, SR. III, and SR. V) which still have outstanding recommended actions. The authorities advised that the drafting of legislation for the establishment of a civil forfeiture regime was to begin shortly, the Central Bank of Barbados (CBB) had revised its AML/CFT Guidelines and that amendments to the FSC AML/CFT Guidelines had been prepared. Additionally, revisions to the Companies Act (CA) and the Societies with Restricted Liabilities Act (SRLA) were drafted and the draft International Corporate and Trust Service Providers Regulations (ICTSPR) were revised. The FSC AML/CFT Guidelines were finalized and gazetted in January 2014 thus making them enforceable and improved the level of compliance of Recs. 9, 15, and 21.

Core Recommendations

Recommendation 5

7. As noted in the Follow-Up Report of November 2011, the majority of the examiners' recommended actions were implemented via provisions in the MLFTA 2011. Outstanding recommended actions include a legislative requirement for financial institutions to determine the natural persons that ultimately control the customer, and defining the term "beneficial ownership" in the MLTFA with regard to the level of ownership. No new measures have been implemented to deal with this recommended action for this report.

8. The other outstanding recommended measure requires the extension of the enforceability of specific CDD requirements from the licensees of the CBB and the Supervisor of Insurance (SOI) to all financial institutions. These CDD requirements include the updating of data or documents collected under the CDD process, measures for high and low risk categories of customers, and timing of verification and failure to complete CDD and application of CDD requirements to existing customers. As noted in the Follow-Up Report of May 2013, these requirements are included in the Anti-Money Laundering/Combating Terrorist Financing Guidelines for financial institutions regulated by the FSC (FSC AML/CFT Guidelines). However, entities under the supervision of the International Business Unit of the Ministry of International Business and International Transport do not have similarly enforceable requirements. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. Consequently, this recommended measure remains partially outstanding.

9. Amendments to the FSC AML/CFT Guidelines were finalized and gazetted in January 2014, thereby becoming enforceable. Section 6.8 of the revised FSC AML/CFT Guidelines states that notwithstanding the circumstances which may warrant reduced due diligence, financial institutions must not apply reduced due diligence where there is a suspicion of money laundering

or terrorist financing. This measure clarifies the provision of section 17(2) of the MLFTA which complies with the examiners' recommendation and requires financial institutions not to reduce or simply their procedures for identification and verification of the identity of the customer nor their procedures for ongoing due diligence where there is a suspicion of money laundering or financing of terrorism. The level of compliance of Recommendation 5 remains unchanged since the requirement of section 6.8 of the revised FSC AML/CFT Guidelines has already been addressed by section 17(2) of the MLFTA and outstanding recommendations noted above from previous reports remain.

Key Recommendations

Recommendation 23

10. As a result of measures implemented by the authorities two of the four examiners' recommendations were met. The two remaining recommendations are for the Securities Commission to have the power to approve ownership of significant or controlling interests of the registrants under the SA and the development and implementation of a framework for regulating and supervising money value transfer (MVT) services that are not licensees of the Central Bank. The authorities advised in a previous report that the first recommendation was to be implemented by an amendment to the Financial Services Commission Act (FSCA). With regard to the second, the authorities advise that amendments to banking legislation have been drafted to bring stand-alone MVTs under the regulation and supervision of the CBB. Given the above, both recommendations remain outstanding.

Recommendation 36

11. As noted in a previous report only two of the six examiners' recommended actions remain outstanding. With regard to the recommendation to consider negotiating with the UK Government for another MLAT covering areas outside drugs dealing; and generally seek opportunities to progressively conclude MLAT's with a broader range of countries the authorities have advised that after reviewing the mutual legal assistance framework they are of the view that MACMA complements the drug trafficking agreement with the UK as it was purposely drafted to cover all serious offences including those other than drug offences. MACMA provides the broadest basis for cooperation and was amended in 2001 to cover both Commonwealth and non-Commonwealth countries. The authorities also state that there have been no challenges in providing mutual legal assistance under MACMA to countries. Given the fact that the recommendation was for the authorities to consider the examiners' suggestion, the above meets the recommendation.

12. Concerning the second recommendation that the authorities should consider devising and applying mechanisms for dealing with dual jurisdictional conflicts, the authorities have advised that principle used is that the best venue for the prosecution of defendants is determined by the country which has the best chance of a successful prosecution. This is usually based on the preponderance of evidence gathered against the defendants. The authorities state that it is not uncommon for there to be a mere exchange of notes between countries. An instance of this occurred where a fugitive who was wanted in Barbados for murder was apprehended for arson in Trinidad and Tobago. The authorities in Barbados requested the evidence regarding his arson from Trinidad and Tobago and the countries agreed resulting in the fugitive being successfully prosecuted in Barbados. The above measures suggest that the authorities already have arrangements for dealing with dual jurisdictional conflicts and therefore comply with the recommendation.

Special Recommendation I

13. The outstanding recommended action requires the authorities to fully implement the Palermo Convention by specifically legislating for human trafficking and updating the corruption/bribery laws and in relation to UN S/RES/1373(2001) to explicitly legislate a mechanism to freeze assets of UN designated entities. As already noted in a previous report legislation dealing with human trafficking and corruption/bribery has been enacted. With regard to a legislated mechanism to freeze assets of UN designated entities as per UN S/RES/1373(2001) the authorities have advised that a Cabinet paper has been prepared for the amendment of the Anti-Terrorism Act to ensure compliance with SR.I. Consequently, this recommendation remains partially met.

Special Recommendation III

14. Three of the four examiners' recommended actions remain outstanding. These recommended actions include;

- a) incorporating into legislative requirements a special mechanism to enable the freezing/restraint of assets owned or controlled by persons/entities designated by the UN Sanctions Committee in keeping with the UN Security Resolution 1267 of 1999,
- b) critically reviewing the freezing/restraint and forfeiture regimes under the ATA and POCA with a view to amending the legislation to provide for a uniform approach, and
- c) reviewing the grounds needed to support an application for a freezing order under section 8(1) of the ATA, so as to ensure consistency between local cases and those arising from mutual legal assistance requests.

15. The authorities have advised that a Cabinet paper has been prepared for the amendment of the Anti-Terrorism Act to ensure compliance with SR.III. Consequently, these recommended actions remain outstanding and this Recommendation is only partially met.

Other Recommendations

Recommendation 6

16. With regard to the only recommended action that the requirements for politically exposed persons as stated in the CBB and SOI's AML/CFT Guidelines be enforceable on all financial institutions, as indicated in the previous follow-up report the FSC AML/CFT Guidelines extend these requirements to the financial institutions under the supervision of the FSC. However as noted entities under the supervision of the International Business Unit of the Ministry of International Business and International Transport are not included. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. As such, this recommended action remains partially met.

17. The authorities have advised that the CBB as part of its practice of periodic revision of its AML/CFT Guidelines has included the requirements of FATF Recommendation 12 and the FATF Guidance Note on PEPs in the latest revision. Similar revisions have also been included in the

recently gazetted FSC AML/CFT Guidelines. It is noted that these revisions would comply with requirements of FATF Recommendation 12 which will be evaluated during the 4th Round of Mutual Evaluations. While the authorities in Barbados are to be complimented for taking measures to implement these requirements, they cannot be taken into consideration for this follow-up process. Consequently, the situation with regard to the level of compliance as described above remains unchanged.

Recommendation 9

18. The first outstanding recommended action requires the authorities to consider making the requirements for third party and introduced business as stipulated in the CBB AML/CFT Guidelines enforceable on all other financial institution. As previously noted while the FSC AML/CFT Guideline extends the requirements to the financial institutions under the supervision of the FSC, entities under the supervision of the International Business Unit of the Ministry of International Business and International Transport are not included. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. Consequently, this recommended action remains partially met.

19. The second recommended measure requires financial institutions to satisfy themselves that the third party is regulated and supervised in accordance with Recommendations 23, 24 and 29. Section 7.4.4 of the CBB AML/CFT Guidelines requires licensees to satisfy themselves “about the quality and effectiveness of supervision and regulation in the introducer’s country of domicile (refer to FATF Recommendations 26, 27 and 28): and satisfy themselves that the introducer is regulated, and supervised or monitored for, and has measures in place for compliance with CDD and record-keeping requirements in line with the FATF Recommendations.” The above provision fully complies with the recommended action and has included the correct reference to the revised FATF Recommendations. A similar provision has also been included in the recently gazetted FSC AML/CFT Guidelines. However, entities under the supervision of the International Business Unit of the Ministry of International Business and International Transport do not have similarly enforceable requirements. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. Consequently, this recommended action remains partially met.

20. With regard to the recommended measure for the authorities to consider advising financial institutions on countries from which third parties that meet the conditions of being regulated and supervised and comply with CDD requirements can be based, the authorities cite section 7.4 of the CBB AML/CFT Guidelines which requires licensees to observe Public Statements issued by the FATF and CFATF as it relates to business relationships and transactions with natural and legal persons and financial institutions from listed countries. However, the above provision is more applicable to the requirements of Recommendation 21 dealing with business relationships and transactions from countries which do not or insufficiently FATF Recommendations rather than the recommended action. Consequently, the recommended action remains outstanding.

Recommendation 15

21. As noted in a previous report, two recommended actions remain outstanding. The first recommended action requires all financial institutions to designate an AML/CFT compliance officer at management level and develop policies and procedures for record retention. With regard

to policies for record retention section 10 of the CBB AML/CFT Guidelines and section 9 of the FSC AML/CFT Guidelines requires financial institutions to develop document retention policies. In relation to the requirement for the designation of an AML/CFT compliance officer at management level section 9.0 of the CBB AML/CFT Guideline requires licensees to appoint a person at the management level as compliance officer. A similar requirement has been adopted in the recently gazetted FSC AML/CFT Guidelines. It is noted that the above requirements still have to be imposed on the entities under the supervision of the International Business Unit of the Ministry of International Business and International Transport. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. Given the above, this recommended action remains partially met.

22. The second outstanding recommended action is for the requirements of an independent audit function, training in new techniques and trends in money laundering and terrorist financing, and screening procedures for new employees to be extended from the licensees of the CBB and the SOI to all financial institutions. No information with regard to this recommended action has been submitted for this report which therefore remains outstanding.

Recommendation 21

23. As indicated in previous report, one recommended action has been partially met while three others are outstanding. The first recommended action requires that AML/CFT guidelines should provide specific guidance with regard to requiring special attention to business relationships and transactions with persons from or in countries which do not or insufficiently apply the FATF Recommendations. Section 7.4 of the CBB AML/CFT Guidelines requires licensees to observe the Public Statements issued by the FATF and the CFATF as it relates to business relationships and transactions with natural and legal persons, and financial institutions from listed countries. A similar provision has been adopted in the recently gazetted FSC AML/CFT Guidelines. The above provision complies with the recommended action. However, the provision has not been extended over the entities supervised by the International Business Unit of the Ministry of International Business and International Transport. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. Consequently, the recommended action remains partially met.

24. The requirements that the written findings of all transactions with no apparent economic or lawful purpose from countries that do not or insufficiently apply FATF Recommendations be available to competent authorities have been included in relevant sections of the CBB AML/CFT Guidelines and the FSC AML/CFT Guidelines as noted in a previous follow-up report. There is a need to extend this requirement over entities supervised by the International Business Unit of the Ministry of International Business and International Transport. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. Consequently this recommended action remains partially met.

25. The other two recommended actions include requiring the authorities to put in place measures to ensure that financial institutions are advised of concerns about the weaknesses in the AML/CFT systems of other countries and to consider issuing instructions regarding countermeasures for transactions and business relationships with countries that do not apply or

insufficiently apply the FATF Recommendations. No information has been provided regarding these recommended actions which therefore remain outstanding.

Recommendation 22

26. The first recommendation stipulates that the obligation for financial institutions to ensure that their foreign branches and subsidiaries observe AML/CFT measures consistent with the requirements of Barbados and the FATF be extended from the licensees of the CBB and the Supervisor of Insurance to all financial institutions. The above mentioned obligation is included in section 2 of the FSC AML/CFT Guideline thereby extending it to those entities under the supervision of the FSC. However, entities under the supervision of the International Business Unit of the Ministry of International Business and International Transport are still to be included. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. Consequently this recommendation remains partially met.

27. The second recommendation requires financial institutions to pay particular attention that their foreign branches and subsidiaries in countries which do not or insufficiently apply the FATF Recommendations observe AML/CFT measures consistent with requirements in Barbados and the FATF Recommendations. The authorities cite sections 6.8 and 12.2.3 of the FSC AML/CFT Guideline as referring to the FATF's high risk and non-cooperative jurisdictions list. However, neither section obliges financial institution to pay particular attention in the circumstances outlined in the recommendation. As such, this recommendation remains outstanding.

28. The third recommendation requires branches and subsidiaries in host countries to apply the higher standard where the minimum AML/CFT requirements of the home and host countries differ to the extent that host country laws and regulations permit. Both the CBB AML/CFT Guidelines and the FSC AML/CFT Guideline incorporate in their respective section 2 an obligation that financial institutions ensure that their operations apply the higher of local and host standards. The deficiency already noted with regard to the non-inclusion of the entities under the supervision of the International Business Unit of the Ministry of International Business and International Transport is also applicable. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. Consequently this recommendation remains partially met.

29. The last recommendation requires the obligation for financial institutions to inform their home country supervisor when a foreign branch or subsidiary is unable to observe appropriate AML/CFT measures because this is prohibited by local laws, regulations or other measures to be extended from the licensees of the CBB and the Supervisor of Insurance to all financial institutions. The above requirement is included in section 2 of the FSC AML/CFT Guideline thereby extending this requirement to those entities under the supervision of the FSC. However, as already noted the non-inclusion of the entities under the supervision of the International Business Unit of the Ministry of International Business and International Transport is also applicable. The authorities have advised that the International Business Unit of the Ministry of International Business and International Transport is revising its AML/CFT Guideline which should be finalized by the end of 2014. The Guideline will apply to all registrants. Consequently this recommendation remains partially met.

Recommendation 25

30. The recommended action required the FIU to provide feedback to financial institutions with regard to suspicious transaction reports. In the follow-up report of April 2010, the authorities advised that the FIU provided specific feedback to financial institutions with respect to ongoing suspicious transaction reports in a manner that would not compromise the investigative process. As matters are completed or closed, the financial institutions are given a short summary of findings. It was noted that while the above measures comply with the examiners' recommendations, statistics on the number of feedback provided over the last three years would assist in demonstrating implementation. No such information has ever been provided.

31. As indicated in the last report the authorities advised that in February 2014, the FIU held a meeting with 53 compliance officers from 53 institutions from varying sectors including domestic banks, insurance, international banks, credit unions, finance companies, money service businesses, company and trust service providers to provide feedback on local and regional typologies and trends for money laundering. No additional information has been provided for this report regarding statistics on the number of feedback provided over the last three years. As such, the situation remains unchanged with the recommendation partially met.

Recommendation 34

32. The recommended measure requires that the authorities should implement measures for monitoring and ensuring compliance of international trusts supervised by the Ministry of Economic Affairs and Development, lawyers and accountants with AML/CFT requirements i.e. retention of beneficial ownership and control information. In a previous report it was indicated that the FSC and the International Business Unit were discussing a monitoring regime pursuant to section 4(1) (e) of the FSCA which includes as one of the functions of the FSC, the provision of technical assistance and advice to the International Business Unit or any other government agency with regard to legislative responsibilities to supervise, regulate or monitor any business operating in Barbados. It was also noted that draft ICTSPR were revised, approved by Cabinet and were being redrafted by the CPC. Currently, the authorities have advised that revisions to the Corporate and Trust Service Providers Bill are at an advanced stage of completion. As such, the situation remains unchanged from the last report with the recommended action being outstanding.

Special Recommendations VI and VII

33. As indicated in a previous report all of the examiners' recommended actions are outstanding. The authorities advise that amendments to banking legislation have been drafted to bring stand-alone MVTs under the regulation and supervision of the CBB. Given the above the status of the examiners' recommended actions for both Recommendations remain unchanged.

Conclusion

34. Since the last follow-up report Barbados' overall level of compliance with the recommended actions of the MER has minimally improved. The authorities have fully complied with the examiners' recommended actions for Rec. 36. At present, Barbados fully complies with six Key and Core Recommendations (Recs. 3, 4, 10, 36, 40 and SR. IV), and there are nine (9) Key and Core Recommendations (Recs. 1, 5, 13, 23, 26, 35, SR. I, SR. III, and SR. V) which still have outstanding recommended actions. While the majority of the outstanding recommended actions are minor, the authorities are advised that the timeframe for proposed measures should be reconsidered particularly those involving enactment of legislation to ensure that measures are in

place for Barbados to exit the follow-up process. Given the above it is recommended that Barbados remain in enhanced follow-up and report back to the Plenary in May 2015.
