DOMINICA SIXTH FOLLOW-UP REPORT

I. INTRODUCTION

1. This report represents an analysis of Dominica's report back to the CFATF Plenary concerning the progress that it has made towards correcting the deficiencies that were identified in its third round Mutual Evaluation Report. Based on the action taken by Dominica since November 2012, the Plenary issued a Public Statement on the Jurisdiction and recommended that Dominica bring into force mechanisms to address its AML/CFT deficiencies by November 2013. This report contains an analysis of the action by Dominica since the May 2013 Plenary and incorporates the legislation enacted just prior to the Plenary on May 16, 2013. This report also contains an analyses of the key Recommendations rated as LC.
2. Dominica received ratings of PC or NC on thirteen (13) of the sixteen (16) Core and Key Recommendations as follows:

II. SUMMARY OF PROGRESS MADE BY DOMINICA

5. On May 16, 2013 Dominica enacted the Proceeds of Crime (Amendment) Act; the Transnational Organized Crime (Prevention and Control) Act, the Money Laundering (Prevention) (Amendment) Act, the Criminal Law and Procedure (Amendment) Act, the Financial Services Unit (Amendment) Act, and the Suppression of the Financing of Terrorism (Amendment) Act. The AML Guidelines were revised.

III. REVIEW OF MEASURES TAKEN IN RELATION TO THE CORE RECOMMENDATIONS

6. For **Recommendation 1**, the fifth follow-up report had noted the positive actions by Dominica which resulted in this Recommendation being closed.
7. As for **Recommendation 5**, which was rated as NC the fourth follow-up report ([Dominica 4th Follow-up Report](#)) and the fifth follow-up ([Dominica 5th Follow-up Report](#)) have detailed the positive action by Dominica which resulted in six (6) of the eight (8) deficiencies being closed. The two (2) outstanding recommended actions: (ii) *the requirement for financial institutions to ensure that documents, data or information collected under the CDD process is kept up to date should be enforceable*. This has been specifically addressed by the regulation 25A ML(P)(A)R 2013. Here a person carrying on a relevant business is mandated to keep the documents, data and information collected pursuant to these said regulations (CDD information) up to date by carrying out reviews of existing records. Here Dominica may wish to implement this measure by using some sort of trigger, particularly one linked to higher risk categories of customers. This gap is **closed**. The other outstanding recommended action: (v) *the Guidance Notes should include additional*

guidance with regards to identification and verification of the underlying principals, persons other than the policyholders with regards to insurance companies. – The FSU has issued AMLguidelines pursuant to **s.9** of the **MLPA** which has resulted in this gap being .Atparagraph 41 of section VI of these guidelines insurance companies or intermediaries are required to have CDD procedures which seek to:

- Identify the underlying principal(s) or beneficial owner of the customer, and take reasonable measures to verify the identity of the underlying principal(s) or beneficial owner such that the insurance company or intermediary is satisfied that it knows who the underlying principal(s) or beneficial owner is.
- Identify and verify the identity of the beneficiary of the insurance contract at or before the time of payout or the time when the beneficiary intends to exercise vested rights under the policy.
- Obtain appropriate additional information to understand the customer's circumstances and business, including the purpose and the expected nature of the relationship.

Recommendation 5 overall conclusion.

8. The two (2) outstanding deficiencies have now been addressed and as a consequence this Recommendation is ***closed***.
9. For **Recommendation 13** the third follow-up report ([Dominica 3rd Follow-up Report](#)) has detailed the technical analysis which discerned the lone outstanding issue was inherently a cross referencing error. This has been addressed at **s.6 of the SFT(A)A 9 of 2013**. Consequently this Recommendation is now***closed***.
10. At **Special Recommendation II which was rated as PC**the fourth follow-up ([Dominica 4th Follow-up Report](#))reporthas detailed the technical analysis of Dominica's actions which resulted in the closure of all the deficiencies. This Special Recommendation was ***closed***.
11. **Special Recommendation IV was rated as NC**. Here the comments for Recommendation 13 above are relevant. This Special Recommendation is ***closed***.

IV. REVIEW OF MEASURES TAKEN IN RELATION TO THE KEY RECOMMENDATIONS

12. For **Recommendation 3** the comments of the third follow-up report ([Dominica 3rd Follow-up Report](#)) the fourth follow-up report ([Dominica 4th Follow-up Report](#)) and the fifth follow-up ([Dominica 5th Follow-up Report](#)) reports are relevant. Specifically, there were two (2) recommendations made by the examiners and intended as cures for the gaps in the MER.The first required that Dominica's laws should allow for the initial application to freeze or seize property, subject to confiscation, to be made ex-parte or without prior notice. **S.29 (2)** of the MLPA now enables the Director of Public Prosecutions (DPP) to make such an application with or without notice. Such applications however, according to **s.29 (1)**, are in relation to the property of, or in the possession or under the control of a person charged or who is about to be charged with or is being investigated with a money

- laundering offence. The reports had concluded that “*It was unclear whether this provision can be exercised on property being held or owned by a third party*” where that third has not been charged for an offence. Dominica has directly addressed this deficiency at **s.3 of the ML(P)(A)** by capturing gifts made either directly or indirectly by a person after the commission of a money laundering offence. This Recommendation remains ***closed***.
13. The fourth follow-up report ([Dominica 4th Follow-up Report](#)) has already noted the action which resulted in **Recommendation 4** being ***closed***.
 14. For **Recommendation 23 which was rated as NC** please see the third follow-up report ([Dominica 3rd Follow-up Report](#)) the fourth follow-up report ([Dominica 4th Follow-up Report](#)) and the fifth follow-up ([Dominica 5th Follow-up Report](#)) reports for analyses of Dominica’s efforts at closing the deficiencies in the MER. The outstanding issue was related to Essential Criteria (EC) 23.3 and 23.3.1. Dominica has reported that the FSU has developed an onsite inspection manual specific to AML/CFT. This manual has been shared with the Secretariat and contains comprehensive details of the inspection processes which are to be followed by the FSU’s inspectors when engaging its stakeholders. In this regard the manual contains detailed examination procedures which are all specific to AML/CFT. With regards to fit and proper criteria and the enforcement of these measures, Dominica had previously reported that the FSU’s inspectors are guided by **s.27** of the FSU Act of 2008 which is concerned with the fitness of persons carrying on a licensed financial business. In fact **s.27 (2)** details several criteria which can be used to determine whether a person is fit and proper. At **s.27 (3)** evidence of certain previous conduct may be used in coming to a determination. Relative to the manpower, financial and technical resources and expertise of the FSU’s examiners, Dominica has provided the Secretariat with documents showing details of the qualifications and expertise of all its examiners. This document has not been made available because of the confidential nature of the information it contained. Notwithstanding, the Jurisdiction has reported that the FSU inspectors will soon be undergoing CAM certification to bolster their current skillset. Dominica still has not provided any details on the financial resources available to the FSU. Notwithstanding, based on the above and the comments of the previous follow-up reports, it can be seen that the Jurisdiction has made a deliberate and concerted effort to improve both the legislative and operational support for the FSU and its structured work programme is a work in progress. This Recommendation is now ***closed***.
 15. For **Recommendation 26 which was rated as PC**, the issue relating to the security of the FIU’s information is reported to have been addressed through the acquisition of physical offsite storage where copies of the FIU’s database are secured. This gap is ***closed***.
 16. Relative to the recommended action that *the FIU should have more control over its budget since the control currently maintained by the Ministry could impact the Unit’s operation and to some extent its independence*. Dominica has explained the process for the allocation of funds for its operations. According to Dominica “Whenever, the FIU needs to expend budgetary resources, a request is made by the Director of the FIU to the Permanent Secretary of the Ministry of Legal Affairs for endorsement of expenditure under the aegis of the budgetary allocation related to a specific expenditure head.” Dominica further reports that “Requests have always been endorsed by the Permanent Secretary” in his/her capacity as Accounting Officer, endorses expenditure by the FIU to ensure that the FIU remains within its budgetary provisions. The budgetary allocation for fiscal years 2011/2012, 2012/2013 and 2013/2014 amounted to \$273,542; \$370,386 and \$368,345 respectively and the Director of

the FIU has reported that in instances where the FIU had expended its allocated budget, additional funds were made available to it. This situation, as is now described by Dominica, is exactly as it were during the onsite and is what lead to the examiners noting it as a deficiency which could affect the operational independence of the FIU. Even though the FIU is reporting that the Permanent Secretary has always endorsed its requests, the existence of an approval process outside of the FIU suggests that there is the potential for a refusal, by the Permanent Secretary to occur. This gap is *open*.

17. Dominica has provided the Secretariat with a copy of its annual report for 2012. This report has been laid before the Dominican Parliament and is now publicly available from the government printer. It has also been circulated to all Egmont members. This gap is *closed*.

Overall conclusion for Recommendation 26

18. There were six (6) deficiencies noted in the MER and four (4) recommended actions aimed at closing those deficiencies. Dominica has completely addressed three (3) of the recommended actions whilst the other remains as it was during the onsite visit. This Recommendation is *outstanding*.
19. For **Recommendation 35 and Special Recommendation I ratings of PC** were applied and identical deficiencies discerned. The recommended action was that *the Commonwealth of Dominica should become a party to The 2000 United Nation Convention Against Trans-national Organized Crime – (The Palermo Convention) and fully implement article Articles 3-11, 15, 17 and 19) of the Vienna Convention, Articles 5-7, 10-16, 18-20, 24-27, 29-31, & 34 of the Palermo Convention, Articles 2- 18 of the Terrorist Financing Convention and S/RES/1267(1999) and its successor resolutions and S/RES/1373(2001).*
20. Dominica acceded to the United Nation Convention Against Trans-national Organized Crime on May 17, 2013 therefore the related gap is *closed*.
21. The Vienna Convention has been implemented through domestic legislation. The legislation includes The Transnational Organized Crime (Prevention and Control) Act, The Drugs (Prevention of Misuse) Act, the Money Laundering (Prevention) Act, the Proceeds of Crime Act, the Financial Services Unit Act, the Mutual Assistance in Criminal Matters Act, the Integrity in Public Office Act, the Extradition Act, Protection of Witnesses Act. This gap is *closed*.
22. **Recommendation 36 which was rated as LC.** On November 14, 2013 Dominica advised the Secretariat that this deficiency has been addressed via the Central Authority in guidelines issued in May 2013. An analysis of this will be presented in Dominica's 7th follow-up report.
23. **Recommendation 40 which was rated as LC** has been addressed through the **s.40** of the **MLPA**. This section is concerned with the sharing of information with foreign counterparts and specifically states that the FIU shall not refuse a request on the ground that it involves matters of a fiscal nature. **S.19 (2)** of the Mutual Assistance in Criminal Matters Act No. 9 of 1990 states the conditions where requests for cooperation can be refused. Fiscal matters are not included. This Recommendation is *closed*.
24. The procedure to give effect to Terrorist Financing Convention and S/RES/1267(1999) and its successor resolutions and S/RES/1373(2001) have not as yet been created. The gap here is

open and consequently Recommendation 35 and Special Recommendation I *remain outstanding*.

25. **Special Recommendation I** is as was noted during the onsite. This Special Recommendation is *outstanding*.
26. As for **Special Recommendation III**, Dominica was rated as PC and the examiners made four (4) recommendations to close the gaps they discerned.
 - i. *Strengthen their legislation to enable procedures which would examine and give effect to the actions initiated under the freezing mechanisms of other jurisdictions –* The third follow-up report ([Dominica 3rd Follow-up Report](#)) noted the action by Dominica through the enactment of **s.10** of the SFTAA. That report however concluded, “*It appears however that this amendment falls short of the requirement because even though it refers to the accounts, funds or property that was the subject of the freezing mechanism of the requesting State, there seems to be a discretionary obligation as to whether the court may “receive” the application from the competent authority. Additionally it is quite unclear as to what is intended by “receive a request”. Further, no procedures are outlined which will give effect to any such action by the court*” This issue has been addressed by Dominica at **s.8** of the **SFT(A) 2013**. Accordingly the Court or other competent authority may receive a request from the court of another State to identify, freeze, seize, confiscate, or forfeit the property, or any property of corresponding values, proceeds or instrumentalities, connected to offence under the SFTA or any other enactment. That gap is now *closed*. Dominica has also provided the Secretariat with a copy of the Central Authority Procedures from the Chambers of the Attorney General. At page 13 under the heading ‘Application for Order on behalf of foreign jurisdiction’ the procedures to be followed when pursuing a request from a foreign jurisdiction to have an order enforced in Dominica is spelled out. This gap is *closed*.
 - ii. *Implement effective mechanisms for communicating actions taken under the freezing mechanisms–*The Central Authority Procedures details the procedures that will be employed upon receipt of a freeze order from another jurisdiction. The document at PART A spells out both the actions that will be taken domestically and with respect to any foreign request received. This gap is *closed*.
 - iii. *Create appropriate procedures for authorizing access to funds or other assets that were frozen pursuant to S/RES/1267 (1999)–*This is achieved through the Central Authority Procedures. At page 12 “Access to Funds” the procedures to be employed by someone wishing to gain access to funds or other assets frozen pursuant to Security Council Resolution 1267 (1999) and its successor Resolution 1373 (2001) is detailed. This gap is *closed*.

- iv. *Issue clear guidance to financial institutions and persons that may be in possession of targeted funds or assets or may later come into possession of such funds or assets.* Dominica has amended the SFTA of 2003 by enacting a new **s.47**. At **s.47 (1)** there is now an obligation for the FSU to issue guidelines to financial institutions or persons in possession of funds related to a terrorist or terrorist group, including funds which are the subject of a freezing order. The FSU has issued guidelines which it re-circulated to the financial sector on November 14, 2013 and provided the Secretariat with a copy of the communication. This gap is **closed**.
- 27. Action by Dominica has resulted in all of the deficiencies noted by the examiners being closed. Consequently **Special Recommendation III** is **closed**.
- 28. With regards to **Special Recommendation V** the examiners applied a PC rating and noted four (4) deficiencies for which corrective action were required. The fifth follow-up report has already detailed the positive action by Dominica which resulted in the **closure of the first three gaps**.
- 29. The fourth deficiency where the examiners discerned that there were no measures or procedures adopted to allow extradition requests and proceedings relating to terrorist acts and the financing of terrorism offences to be handled without undue delay is partially addressed at Part B of the Central Authority Procedures where extradition requests relating to terrorist financing is covered. Here the procedures to be adopted by Dominica when acceding to extradition requests is fully fleshed out but there appears to be no indication on the timeframe for doing this. This gap is **open**.
- 30. Dominica's action has fully addressed three (3) of the four (4) deficiencies. This Recommendation is **outstanding**.

V. REVIEW OF MEASURES TAKEN IN RELATION TO THE OTHER RECOMMENDATIONS

- 31. **Recommendation 8 which was rated as NC** still has the deficiency noted in fifth follow-up report. This recommendation remains **outstanding**.
- 32. **Recommendation 9 which was rated as NC** still has the deficiencies noted in fifth follow-up report. This recommendation remains **outstanding**.
- 33. For **Recommendation 12 which was rated as NC**, the deficiencies for Rec. 8 and 9 are applicable. This Recommendation remains **outstanding**.

34. **Recommendations 15** continues to be in abeyance. The examiners had made two (2) recommendations aimed at improving the PC rating which they had applied. The first recommendation requiring financial institutions to maintain independent audit functions to test compliance with procedures, policies and controls has only been partially addressed through **r.3 (1) (a) (v)** of the ML(P)R 2013 because there is no obligation that the audit function being referred to must be independent and adequately resourced. The noted gap therefore remains *open*. The second recommendation requiring financial institutions to also have internal procedures relative to terrorist financing has not as yet been addressed thereby also leaving this gap *open*. This Recommendation continues to remain *outstanding*.
35. **Recommendation 16 which was rated as NC** still has the deficiencies noted in fifth follow-up report. This recommendation remains *outstanding*.
36. **Recommendation 18 was rated as NC** there were two (2) recommended actions to close deficiencies noted in the MER. (1) *Financial institutions should not be permitted to enter into, or continue correspondent banking relationship with shell banks and* (2) *Financial institutions should be required to satisfy themselves that respondent financial institutions in a foreign country do not permit their accounts to be used by shell banks*. The first recommended action is now addressed at **r.20 (3)** of the ML(P)R 2013 where a bank is prohibited from maintaining a business relationship with banks that do not maintain a physical presence under the laws of which they were established, unless they are part of a financial group subject to effective consolidated supervision. The first gap is *closed*. The second recommended action is has not as yet been addressed and so that gap is still *open*. Recommendation 18 is *outstanding*.
37. **Recommendation 19 which was rated as NC**, Dominica previously reported that the FIU is, “*Currently conducting a critical analysis of a cash reporting system*”. For this reporting period Dominica submitted an unsigned and undated Ms Word document under the letterhead of the FIU with the heading **CONSIDERATION OF FATF RECOMMENDATION**. It must be immediately noted that ‘Consideration’ as anticipated by Recommendation 19 is a formal process and must be undertaken by an entity which was constituted for that specific purpose. Whilst the document, which was developed by the FIU, makes out a case against establishing a threshold reporting system it cannot be accepted as formal consideration. This Recommendation is *outstanding*.
38. **Recommendation 20** is as was noted during the onsite. This Recommendation is *outstanding*.
39. **Recommendation 21** is as was noted during the onsite. This Recommendation is *outstanding*.
40. **Recommendation 22** is as was noted during the onsite. This Recommendation is *outstanding*.
41. With regards to **Recommendation 24**, the third follow-up report has already noted the action by Dominica and concluded that, “*This action has the effect of significantly closing the gap for Recommendation 24*”. In the context of the examiners recommendation that, “*There is no comprehensive regulatory and supervisory regime that ensures compliance by casinos and other DNFBPs with the AML/CFT regime that is in place*”, Dominica is yet to demonstrate

that its casinos and other DNFBPs are being effectively regulated and supervised for AML/CFT. This Recommendation remains *outstanding*.

42. **Recommendation 25** is as was noted during the onsite. This Recommendation is *outstanding*.
43. For **Recommendation 27 which was rated as PC**, the examiners recommended action is the subject of policy document which is currently being drafted. This Recommendation remains *outstanding*.
44. **Recommendation 28 which was rated as PC**, is as was noted in the fifth follow-up report. This Recommendation remains *outstanding*.
45. **Recommendation 30 which was rated as NC** continues as noted in the fifth follow-up report. This Recommendation30 remains *outstanding*.
46. For **Recommendation 31 which was rated as NC**continues as noted in the fifth follow-up report. This Recommendation 30 remains *outstanding*.
47. **Recommendation 32 which was rated as NC** continues as noted in the fifth follow-up report. This Recommendation 30 remains *outstanding*.
48. **Recommendation 33 which was rated as PC**is as was noted during the onsite. This Recommendation is *outstanding*.
49. **Recommendation 34 which was rated NC** is as was noted during the onsite. This Recommendation is *outstanding*.
50. For**Recommendation 38 which was rated PC** the status is as was noted in the fifth follow-up report. This Recommendation is *outstanding*.
51. **Special Recommendation VII** is as was noted during the onsite. This Special Recommendation is *outstanding*.
52. **Special Recommendation VIII** is as was noted during the onsite. This Special Recommendation is *outstanding*.
53. For **Special Recommendation IX which was rated PC** the status remains as noted in the fifth follow-up report. This Recommendationremains *outstanding*.

VI. MAIN CONCLUSIONS AND RECOMMENDATIONS TO THE PLENARY

Core Recommendations

54. Since its mutual evaluation Dominica has amended its AML/CFT legislation to address the deficiencies in the MER to the extent that all deficiencies have been addressed and Dominica is now in full compliance with the all of the Core Recommendations.

Key Recommendations

- 55. For Recommendations 3, 4, 23, 40 and SR.III, Dominica has addressed all the deficiencies identified in the MER.
- 56. For Recommendations 26, 35, 36, SR.I, and SR.V Dominica has made significant progress in addressing the deficiencies. For Rec. 35 and SR.I the conventions are in place and the various articles are supported by domestic legislation however the procedures to give effect to S/RES/1267 and its successor resolutions and S/RES/1373 are not yet in place.

Other Recommendations

- 57. Dominica has made sufficient progress to close Recommendations 6, 7, 11 17, 29 and SR.VI. Significant progress has been made with Recommendations 15, 18 and 24. The other Recommendations remain as they were during the onsite.

Conclusions

- 58. Overall Dominica has reached a satisfactory level of compliance with all six core Recommendations and significantly addressed all the key Recommendation.
- 59. Given the significant progress made by Dominica and the ongoing efforts at further addressing some of the outstanding deficiencies, it is recommended that the Plenary allow Dominica another six (6) months to continue its reform.

Rec. 16 DNFBP – R.13-15 & 21	NC	No effective application of R 13-14, R 15 and 21. No competent body to impose sanctions/fines.	i. There is no specific body charged with the duty of applying sanctions to DNFBPs without requiring a court order. ii. As well the FSU does not conduct ongoing monitoring and compliance checks on these entities or persons to ensure that the requirements of R 13-14, R 15 and 21 are complied with, particularly as regards the money remitters and licensed agents. It is recommended that a competent authority (FSU) be entrusted with the legal responsibility of imposing sanctions or fines as well as conducting on-going monitor and compliance.	Via section 7 of the MLP Act No. 8 of 2011 the FSU is charged with the duty of applying sanctions to the DNFBPs without first requiring a court order. Sections 9-12 of the Act outlines the measures which the authority can take, none of which requires a court order. Section 11 of the MLP ACT No.8 of 2011 makes provisions for the imposition of sanctions on financial institutions and scheduled entities. These sanctions also include the imposition of fines. Section 12 (C) of the Act makes provisions for the imposition of a “pecuniary penalty” on schedule entities or financial institutions. 			<p>vi. Ensure that the definition of terrorist, terrorist act and terrorist organization are in line with the term terrorist act as defined by the FATF</p>	<p>Sec. 2 of the SFTA 3 of 2003 as amended by Section 3 of the SFT (Amendment) Act No. 9 2011 provides for a new definition of terrorist and terrorist act which is in keeping FATF recommendation. The definition given to “terrorist” is consistent with the definition found in the Glossary of Definitions in the FATF 2009 Methodology. The same approach has been taken for “terrorist act”.</p> <p>However, the term “terrorist organisation” is not as referenced by the Examiners. This term is not used throughout our SFTA and amendments thereto. Instead, the term “terrorist group” is used but is given a definition consistent with the definition of “terrorist organisation” found in the Glossary of Definition of the FATF 2009 Methodology.</p> <p>This new term and definition thereto can be found at section 2 of the SFTA as amended by section 3 of the Act No. 9 of 2011. It means a group of terrorist that (a) commit, or attempt to commit terrorist acts by any means, directly or indirectly, unlawfully and wilfully; (b) participates as an accomplice in terrorist acts; (c) organizes or directs others to commit terrorist acts; or (d) contributes to the commission of terrorist acts by a group of persons acting with a common purpose where the</p>
