SAINT LUCIA: SIXTH FOLLOW-UP REPORT

I INTRODUCTION

1. This report represents an analysis of Saint Lucia's report to the CFATF Plenary concerning the progress that it has made in correcting the deficiencies which were identified in its third round Mutual Evaluation Report (MER). The third round MER of Saint Lucia was adopted by the CFATF Council of Ministers in November of 2008 in St. Kitts and Nevis. Based on the review of the actions taken by Saint Lucia to meet the recommendations made by the Examiners, the Plenary is being asked to allow Saint Lucia to remain on expedited follow-up and report back in May 2013.
2. Saint Lucia received ratings of PC or NC on all sixteen (16) core and key Recommendations as follows:

Rec.	1	3	4	5	10	13	23	26	35	36	40	I	II	III	IV	V
Rating	PC	PC	PC	NC	NC	NC	NC	PC	NC	PC	PC	NC	NC	NC	NC	NC

3. Relative to the other non-core or key recommendations, Saint Lucia was rated partially compliant and non-compliant as follows:

Partially Compliant (PC)	Non-Compliant (NC)
R.9 (Third parties and introducers)	R. 6 (Politically exposed persons)
R. 14 (Protection & no tipping-off)	R. 7 (Correspondent banking)

II. SUMMARY OF PROGRESS MADE BY SAINT LUCIA

5. Since the fifth follow-up report Saint Lucia has acceded to and or ratified several conventions related to the UN Convention for the Suppression of the Financing of Terrorism. Saint Lucia has also enacted its DNFBP Regulations through the Money Laundering (Prevention) (Guidelines for Other Business Activity) Regulations (MLPGOBAR) as Statutory Instrument 2012, No. 83. Amendments to the Money Laundering (Prevention) (Guidance Notes) Regulations (MLPGNR) have been effected through the Money Laundering (Prevention) (Guidance Notes) (Amendment) Regulations (MLPGNAR) as Statutory Instrument 2012 No. 82. Both Instruments were brought into force on August 10th, 2012.
6. With respect to **Recommendation 6**, Saint Lucia's has now effectively closed the gaps that were still outstanding since its first follow-up report. The MLPGNAR amended the MLPGNR by deleting paragraph 88 and inserting a new paragraph 88(a) which now includes a range of PEP-specific requirements that financial institutions, utilising a risk-based approach, are bound to perform, along with their normal customer due diligence. These requirements include:

- i. having risk management systems to determine whether a customer or potential customer is a PEP or acting on a PEP's behalf;
 - ii. developing clear policies and internal guidelines, procedures and controls regarding PEP business relationships;
 - iii. obtaining senior management approval before establishing PEP business, or continuing such business, if a customer subsequently becomes a PEP;
 - iv. establishing source of wealth and source of funds;
 - v. proactively monitoring PEP accounts so as to be able to detect changes to such accounts which may be indicative of corruption or the misuse of public assets
7. Further to the obligations at i to v above, at 88(e) (ii) of the MLPGNAR there is the requirement for financial institutions to adopt detailed due diligence methods which include, among others, establishing, at the onset of the relationship and on an ongoing basis, the source of wealth (including the economic activity which created the wealth) and the source of funds. All the recommendations made by the examiners are now taken on board and as such the **gaps discerned in the MER for this Recommendation are closed.**
8. As for **Recommendation 8**, the first follow-up report had noted that *“This recommendation is only partially implemented because no mention is made of any policy requirement to deal with the misuse of technological developments outside of those posed by Internet related transactions”*. The MLPGNAR has address this shortcoming, by inserting after paragraph 101, requirements to apply enhanced due diligence, when financial institutions are dealing with emerging technologies to access its products and services. At 101.A (b) there is the policy requirement for a risk-based approach for the level of verification employed by financial institutions when taking measures to prevent money laundering through the misuse of technology. At 101.A (c) financial institutions are required to undertake assessments in order to identify the type of risks and the level of exposure posed by an emerging technology to their products and implement multi-factor verification measures together with layered scrutiny or other measures which are reasonably designed to mitigate the risks discerned following the risk assessments noted above. At 101.A (d) there is the requirement for financial institutions to carry out ongoing monitoring of the use of emerging technologies in their business relationships. These amendments have the effect of fully implementing the Examiners recommendation and thus the **gaps discerned in the third round MER for this Recommendation are closed.**
9. With regards to **Recommendation 11**, the first follow-up report ([Saint Lucia's 1st follow-up Report](#)) noted that the MLPGNR had only partially closed the gaps in the MER because there was no obligation for financial institutions to examine the background and purpose of the transactions noted at paragraph 31, of the said MLPGNR. The MLPGNAR has now effectively closed that gap, by inserting paragraph 31B, the requirement that where a financial institution observes unusual or complex activity in relation to a client's account, such a financial institution must carry out inquiries to determine the nature of the activity and make a written record of its analysis or findings available to FIA. The combined effect of **S.16(1)** of the MLPA along with

paragraph 31 of the MLPGNR and paragraph 31B of the MLPGNAR has the effect of fully implementing the Examiners recommendations and as such the **gaps discerned in the third round MER for this Recommendation are closed.**

10. For **Recommendation 12**, the first follow-up report ([Saint Lucia 1st Follow-up Report](#)) noted that “the action by Saint Lucia had resulted in significant gaps in the implementation of this Recommendation have been filled”. It was previously noted in this report that Saint Lucia had enacted the MLPGOBAR. These Regulations were made by the Attorney General, exercising his powers to do such, under **S.43 of the MLPA**. These Regulations are intended to provide money laundering prevention guidelines for entities conducting ‘Other business activity’ in Saint Lucia. DNFBPs are fully subsumed within the meaning of ‘Other business activity’ at Part B of Schedule 2 of the MLPA. Any breach of these guidelines, by a person conducting other business activity, is punishable by a fine not exceeding one million Eastern Caribbean dollars. The **gaps discerned in the third round MER for this Recommendation are closed.**
11. With regards to **Recommendation 14**, draft amendments, which are expected to address the examiners recommendations have already been reviewed by the Jurisdiction’s Legislative Drafting Department as a prelude to it being presented to Cabinet and then the Parliament. Saint Lucia has indicated that this amendment will be enacted by November 2012. The comments noted in the first follow-up report are still relevant and as such **this Recommendation continues to remain outstanding.**
12. At **Recommendation 17**, Saint Lucia is continuing to strengthen its other measures to deter ML and TF through the Insurance Bill which currently being re-submitted to Cabinet by the Legislative Drafting Department. This Bill is expected to be enacted by the Jurisdiction’s Parliament on or before November 2012.
13. For **Recommendation 21**, the FIA, pursuant to paragraph 147 of the MLPGNR, issued advisories to the Insurance Council of Saint Lucia and the Bankers Association of Saint Lucia in which countries identified by the FATF as having strategic deficiencies in their AML/CFT regimes were listed. The FIA in these asked the Banks and other financial institutions to apply advanced scrutiny when transacting business with entities in the listed jurisdictions. Saint Lucia has reported that this Circular will also be forwarded to ECCB and the Credit Union Department
14. As for **Recommendation 24**, this report has already noted that Saint Lucia enacted its MLPGOBAR, which is specifically aimed at the Jurisdiction’s DNFBP (person engaged in other business activity) sector. In this regard, the comments noted for Recommendation 12 at paragraph 10 above are also relevant for this Recommendation. DNFBP specific Guidance Notes have already been accepted and finalised and are currently awaiting passage. Amendments to the Legal Professions Act have been proposed to provide for further STR reporting obligations on the part of Attorneys. Attorneys are captured at Schedule 2 Part B of the **MLPA** (Act No 8 of 2010) and consequently are already obligated to file STRs pursuant to **s. 16 (1) (c)** of the said MLPA. The provisions proposed in the Legal Professions Act are therefore already contained in the MLPA. Further, the MLPGOBAR at Regulation 19 (dd) has listed Attorneys at law as providing services which are captured under the scope of the said MLAGOBAR. The action noted above, together with the proposed amendments to the Legal Professions Act, will redound to the further strengthening of Saint Lucia’s AML/CFT

supervisory regime for DNFBPs. The effect of therefore is to ensure that the gaps discerned in the third round MER for this Recommendation are closed.

15. For **Recommendation 30**, one financial investigator and an additional analyst were expected to be assigned to the FIA on or before the 30th September 2012 further bolstering the strength of the FIA and partially implementing the Examiners recommendation that “the FIA should be staffed by at least two dedicated analysts”. Two (2) officers of the FIA have undergone a Tactical Analysis programme by the Egmont Group.
16. For **Recommendations 35 40 and SRI and SRII**, on November 18, 2011, Saint Lucia, by virtue of Article 2(2) of the International Convention for the Suppression of Financing of Terrorism, acceded to the said Convention and all its annexed Conventions without reservation. In furtherance thereof, in July 2012, the Saint Lucian Cabinet approved the accession and ratification of the following, the instruments of which are currently awaiting signing: :
 - i. The International Convention for the Suppression of Terrorist Bombings;
 - ii. Convention on the Physical Protection of Nuclear Material;
 - iii. International convention against the taking of hostages;
 - iv. Protocol Supplementary to the Convention for the Suppression of Unlawful Seizure of Aircraft;
 - v. Convention on the Suppression of Unlawful Acts relating to International Civil Aviation.
17. Memoranda with respect to ratification and accession of the following have been submitted to the island’s Cabinet and are currently being considered:
 - i. Protocol for the suppression of unlawful Acts Against the Safety of Fixed Platforms located on the Continental Shelf;
 - ii. Convention for the Suppression of Unlawful Acts against the Safety of Maritime Navigation;
 - iii. 2005 International Convention for the Suppression of Acts of Nuclear Terrorism;
 - iv. Convention on the Prevention and punishment of Crimes Against Internationally Protected Persons;
 - v. Convention on the Marking of Plastic Explosives for the purpose of Detection;
 - vi. Amendment to the Convention on the Physical Protection of Nuclear Material.
18. The action by Saint Lucia to further approve the accession and ratification of the above mentioned conventions and or protocols highlights Saint Lucia’s commitment in heightening its compliance regime and goes above and beyond the requirement, having already acceded to the International Convention for the

Suppression of Financing of Terrorism and all its annexed conventions. As a result all the **gaps discerned in the third round MER for Recommendations 35, 40 and Special Recommendation I and III are closed.**

19. As for **SR VII**, proposed amendments to bring effects to the Examiners recommendations that amendments to existing legislation should be made to provide details of Special Recommendation VII where technical limitations prevent full originator information from accompanying a cross-border wire transfer are currently before the Legislative Drafting Department. Consequently, the status of this Special Recommendation as noted in the fourth follow-up report ([Saint Lucia 4th Follow-up Report](#)) remains unchanged. This **Special Recommendation continues to remain outstanding.**
20. With regards to **SR VIII**, Saint Lucia is considering commencing the Non-Governmental Organisation Act. No36 of 2006. The extent of the consideration is to determine whether or not the Act requires any amendments to be made thereto in keeping with the country's AML/CFT regime. This Act provides for the appointment of a councillor who will be charged with the functions of a registrar for NPOs.
21. For **SR.IX**, the fourth follow-up report ([Saint Lucia 4th Follow-up Report](#)) noted that the Proceeds of Crime (Amendment) Act No. 15 of 2011 amended the POCA to give effect to the Examiners recommendation that officers of the Police Force and the Marine Services be empowered to seize and detain cash, currency or bearer negotiable instruments. That amendment had however stopped short of the recommendation that such seizures should be threshold based to US\$10,000. Saint Lucia is now reporting that further amendments are now being reviewed by their Drafting Department before being sent to the Cabinet. It is anticipated that this amendment, which will be finalised by November, 2012 will contain the necessary threshold based provisions to give effect to the Examiners recommendation. Notwithstanding the above, SI No. 7 of 2007, which is cited as the Customs (Amendment) Regulations, has particularised a Customs Declaration form which must be completed by every passenger, or head of family, entering or leaving Saint Lucia. At point 5 of this Declaration Form every such passenger who is carrying currency or monetary instruments over US\$10,000, or its equivalent, must declare it. Also, SI No. 6 of 2007, which is cited as the Immigration (Amendment) Regulations, also particularises this Declaration Form. In practice the use of this form has been legislated and implemented in the Jurisdiction even in the absence of a clear definition of currency and bearer negotiable instruments. (Please see statistics on currency seizures below). Saint Lucia has opined that the provisions to give effect to the Examiners recommendations for the seizure and detention of cash, currency and bearer negotiable instruments are already endowed in the existing CCMA, at **S.32 (1)** and **S.94**. It is noted that **S.32 (1)** of the said CCMA contains general provisions concerned with goods improperly imported into Saint Lucia. At Part 1 of the CCMA 'goods', unless the context otherwise requires, is taken to include stores, baggage and livestock. It is unclear what relation **S.94** of the **CCMA** has to AML/CFT in general and SR.IX in particular since this section of the CCMA is concerned with the power of persons employed in the Customs Division to carry out searches.

22. **IMPLEMENTATION ELEMENTS**

23. Saint Lucia has put forward the statistics below to demonstrate the effective implementation of the Recommendations.

24. **Laws and regulations (R.3)**

III CONCLUSION

31. It is clear that Saint Lucia is making a concerted effort to enact the requisite legislation, and amend existing ones, aimed at implementing the Examiners recommendations. The enactments of the MLPGNAR and the MLPGOBAR have had the effect of not only closing the outstanding gaps for Recommendations 6, 8 and 11, but also further strengthening Recommendations 12 and 24. Also, the amendments to the Legal Profession Act, the POCA, the CCMA and the enactment of DNFBP-specific Guidance Notes are close to end of the law making process. Positively as well is the accession and or ratification of Conventions related to the International Convention for the Suppression of Financing of Terrorism. There however seem to be no clearly defined path towards fully implementing SRVIII. Notwithstanding, Saint Lucia is executing a plan which is expected to redound to the finalisation of several pieces of legislation being enacted on or before November 2012.

32. Given all of the above plenary is being asked to leave Saint Lucia on expedited follow-up and report back to the May 2013 Plenary, by which time it is expected that Saint Lucia would have closed all the legislative gaps in its third round MER.

1.ML offence	PC	<p>AML legislation has not been effectively utilized and therefore could not be measured and the Palermo Convention needs to be ratified.</p> <p>The lack of effective investigations and prosecutions also negatively impacts the effectiveness of the AML legislation and regime.</p> <p>Self- laundering is not covered by legislation.</p> <p>Conviction of a predicate offence is necessary</p> <p>All designated categories of offences not included</p>	<ul style="list-style-type: none"> The MLPA should be amended to specifically provide that the offence of money laundering does not of necessity apply to persons who committed the predicate offences in light of the lacuna that presently exists in the law. The offence of self-money laundering must be distinct from the offences which are predicates. The country needs to ensure that the widest possible categories of offences as designated by Convention are included within the MLPA and are definitively defined by legislation. 	<p>The recommended action has been implemented under the POCA.</p> <p>Addressed in the MLPA No. 8 of 2010. 2.ML offence – mental element and corporate liability	LC	Lack of effectiveness of sanctions which are also considered not dissuasive		<p>We have worked with UKSAT (Security Advisory Team) who has trained the DPP's office and the FIA on prosecution, and has provided training for the judiciary which will facilitate effective prosecution. As a result, there are two pending cases before the Court for confiscation.</p> <p>Gaps closed</p>
3. Confiscation and provisional measures	PC	Lack of effective implementation as there are no prosecutions noted for ML. Additionally there are other avenues such as forfeitures and confiscations which are effective measures which have not been utilized and thus add to the lack of effectiveness in implementation of the AML regime.	<ul style="list-style-type: none"> Despite the lack of ML prosecutions there have been convictions for predicate offences and the reasons elucidated are not attributed to a lack of restraint action nor from lack of action by the DPP to suggest a less than effective attempt at obtaining a court sanction. Notwithstanding, the St. Lucian authorities have not demonstrated that there is effective implementation of these measures. The absence of any confiscation speaks to legislation that has never been tested. 	<p>Provisions for civil forfeiture and specific asset tracing measures have been incorporated in the POCA.</p> <p>See section 49 A to 49 C of the Proceeds of Crime (Amendment) Act No. 4 of 2010.</p> <p>Proceedings have been initiated under POCA with respect to cash seizure. 4. Secrecy laws consistent with the Recommendations	PC	<p>There are no bank secrecy laws which impede the sharing of information. 5.Customer due diligence	NC	<p>The MLPA is significantly deficient. These essential criteria are required to be in the law and are not, and even where they are, it does not adequately meet the standard of the essential criteria.</p> <p>The MLPA does not create a legal obligation to undertake CDD above designated threshold, carrying out occasional wire transfers covered by SR VII, where the financial institution has doubts about the veracity of the adequacy of previously obtained customer identification data.</p> <p>There is no legal obligation to carry on due diligence on an ongoing basis</p> <p>There is no legal obligation to carry out enhanced due diligence for higher risk categories of customers / business relationships</p> <p>All financial institutions do not apply CDD to existing customers on the basis of materiality and risk and also do not conduct due diligence on such existing relationships at appropriate times.</p> <p>There is no legal obligation which requires financial institutions to obtain information on the purpose</p>	<ul style="list-style-type: none"> • The St. Lucian authorities should consider either amending the MLPA or giving enforceable means to the Guidance Notes issued by the FIA. • The MLPA should be amended to include provisions that would require all financial institutions to undertake CDD in the following circumstances: <ul style="list-style-type: none"> i. when performing occasional transactions above a designated threshold, ii. carrying out occasional transactions that are wire transfers under SR VII and iii. where the financial institutions is in doubt about the veracity or adequacy of previously obtained customer identification data: iv. on an ongoing basis; v. based on materiality and risk at appropriate times. • Consistent practices should be implemented across all sectors for dealing with AML/CFT issues. The awareness levels of obligations under the MLPA are different within the sub-sectors. Supervisory oversight by the several regulators is also not consistent. 	<p>Section 17 of the MLPA No. 8 of 2010 has addressed the customer due diligence requirements as provided for by Recommendation 5 in particular:</p> <ul style="list-style-type: none"> • Regulations have been designed to implement a general threshold of EC\$25,000.00/US\$10,000 for CDD. • There are specified threshold for various categories of entities including financial institutions casinos, jewellers, accounts, lawyers, and other DNFBPs when engaged in cash transactions and financial transactions carried out in single operations or in several operations that appear to be linked. • It requires a financial institutions that suspects that transactions relating to money laundering or terrorist financing to: <ul style="list-style-type: none"> - Seek to identify and verify the identity of the customer and the beneficial owner.
