MUTUAL EVALUATION OF SURINAME: FOURTH FOLLOW-UP REPORT

I. INTRODUCTION

1. This report represents an analysis of Suriname's report back to the CFATF Plenary concerning the progress that it has made with regards to correcting the deficiencies that were identified in its third round Mutual Evaluation Report. The third round Mutual Evaluation Report of Suriname was adopted in October 2009 in Curacao and Suriname was placed in expedited follow-up. In May of 2011 Suriname was placed into the first stage of enhanced follow-up. Based on Suriname's pace of legislative reform, since being placed in enhanced follow-up and the Jurisdiction's on-going efforts at reforming its AML/CFT infrastructure particularly with regards to the Core and Key Recommendations, Plenary is being asked to move Suriname to expedited follow-up.
2. Suriname received ratings of PC or NC on 15 of the Core and Key Recommendations as follows:

Table 1: Ratings for Core and Key Recommendations

II. SUMMARY OF PROGRESS MADE BY SURINAME

5. On October 29, 2012 Suriname brought the Money Transaction Offices Supervision Act 2012 (MTOSA) into force. The main objective of the MTO is to guarantee the integrity of the Surinamese financial system, as well as to prevent money laundering and the financing of crimes of terrorism. It provides that the business of a money transaction office (MTO) must be linked to a licence issued by the Central Bank of Suriname (CBS). The MTOSA also assigned supervisory duties for MTOs to the CBS. Suriname through General Administrative Decision No. 206 has seen the introduction of a new embarkation and disembarkation card requesting passenger to declare if he/she is carrying currency or monetary instruments over US\$10,000 or equivalent in any other currency.

CORE RECOMMENDATIONS

6. For **Recommendation 1**, there was a collaborated effort to prepare draft legislation certain aspects of which the Suriname Stock Exchange has since asked the Central Bank of Suriname (CBS) to review. Suriname is confident that this review and the resulting discussions will result in the finalization of this draft in the near future. This Recommendation remains *outstanding*.
7. With regards to **Recommendation 5, 10**, the third follow-up report ([Suriname 3rd Follow-up Report](#)) had reported the significant effort by Suriname which resulted in these Recommendations being *closed*.
8. **Recommendation 13** and **SRIV** continue to remain *outstanding* because the gap with respect to the reporting obligation not covering insider trading and market manipulation continues to remain open. This Recommendation and Special Recommendation is *outstanding*.
9. For **Special Recommendation II**, the template, noted in the 3rd follow-up report, which was recommended by the Examiners, to be used to particularise statistics on investigations, prosecutions and convictions for FT and Mutual Legal Assistance (MLA) has been developed and distributed to the FIU, Financial Investigative Team (FOT), the Gaming Board, Prosecutors office and the CBS. The other Examiner's recommendation for this Special Recommendation was related to the fact that there was no legislation criminalising the financing of terrorism (FT). In this regard the second follow-up report ([Suriname 2nd Follow-up Report](#)) had noted the enactment of **art.1C (2) of O.G. 2011 no 96** which did in fact criminalize FT. This Special Recommendation is *closed*.

KEY RECOMMENDATIONS

10. The second follow-up Report ([Suriname 2nd Follow-up Report](#)) noted that the gap discerned for **Recommendation 3**, was *closed*.
11. All the issues raised in the third follow-up report for **Recommendation 4**, are still relevant for this Report. Suriname has however reported that **Art 13** of the **MOT** will be amended to allow for sharing of information. Art 13, as it currently stands, mandates all supervisory authorities as well as other government agencies in Suriname to inform Suriname's FIU (FIUS) if, whilst carrying out their functions, they discover any ML or FT related facts. The third follow-up report had noted an apparent shortcoming with respect to the 2011 Banking and Credit System Supervision Act (**BCSSA**). Notwithstanding, in order to demonstrate the

implementation of the BCSSA Suriname has reported that in July of 2012 the CBS entered into an information exchange agreement with the Caribbean Group of Banking Supervisors. This Recommendation continues to remain *outstanding*.

12. With regards to **Recommendation 23**, the examiners made three (3) recommendations aimed at improving the NC rating. In this regard, the action by Suriname thus far is noted below:

- i. *A relevant supervisory authority should be designated as responsible for ensuring the compliance of their supervised financial institutions and DNFBPs with AML/CFT requirements* – The third follow-up report had noted the introduction of **art 22** of the **MOT Act** to specifically address this recommended action. In this regard, the CBS has been entrusted as the Supervisory Authority for service providers; the Gaming Supervision and Control Institute as Supervisory Authority in so far as gaming providers are concerned and the FIUS in so far as other non-financial service providers are concerned. In furtherance of this action and also to demonstrate the implementation of these legislative measures, Suriname is reporting for this period that the CBS, in January of 2013, conducted AML/CFT training for its Supervision Department, Financial Market Department and Legal Department and is currently working on an onsite examination manual. That training was conducted in collaboration with the US Treasury department. The gap relative to this recommended action is *closed*.
- ii. *There should be a general requirement for money transfer offices and money exchange offices to be licensed or registered. In addition, money transfer offices and money exchange offices should also be made subject to a system for monitoring and ensuring compliance with the AML/CFT requirements* – At Chapter 2 of the MTOSA, **art 3.1** has empowered the CBS with exclusive authority to grant licences to legal entities wishing to carry on the business of a money transaction office. Based on the definition ascribed to MTOs at **art 1.b**, a licence granted by the CBS would allow a MTO to engage in either the exchange of currency or the transfer of currency. However, Chapter 1 **art 2** prohibits a licensee from engaging in both types of transactions simultaneously. Chapter 2 **art 5** details a number of requirements that a legal entity must satisfy before a licence can be granted. At **art 5.3** the CBS can refuse to grant a licence if the Board of executive directors or board of supervisory directors or persons holding a controlling interest was found guilty or is guilty of money laundering or is or was involved in financial crimes. In similar circumstances, pursuant to **art 10**, the CBS can also revoke a licence already granted. The gap relative to this recommended action is *closed*.
- iii. *Surinamese authorities should consider regulating and supervising the Stock exchange for AML/CFT purposes* – *Suriname has not reported any action aimed towards closing this gap.*

13. This action has resulted in significant improvement for the implementation of Recommendation 23 however as the gap in relation to the supervision of the stock exchange is still the subject of draft legislation this Recommendation is still *outstanding*.
14. For **Recommendation 26**, please refer to the third follow-up report, available here ([Suriname 3rd Follow-up Report](#)), for a detailed analysis of the nine (9) recommendations made in the MER. That report concluded that the “*measures by Suriname have actually closed many of the gaps noted by the assessors however, several weaknesses for Recommendation 26 still exists including the fact that the FIU still has not provided feedback; has not issued any guidance aimed at stressing the importance of the timely reporting of suspicious activity. As a consequence, Recommendation 26 remains outstanding*”. For this period Suriname is reporting that based on the provisions of **art 13** of the **MOT**, the FIUS will institutionalize a forum of supervisory authorities and government agencies for collecting information on ML and FT. This action will **close recommended action viii**. However the minor gaps noted above are still open and as a result Recommendation 26 remains *outstanding*.
15. The Assessors recommendations aimed at filling the gaps for **Recommendation 35** and **Special Recommendation 1** are identical. Based on the Bulletin of Acts, Orders and Regulations, No 169 of 2012, Suriname on October 29, 2012, approved the accession to the International Convention for the Suppression of the Financing of Terrorism. This legislation came into force on November 2, 2012. The other gap relative to U.N. S/RES/1267(1999) and U.N. S/RES/1373(2001) are still open. This Recommendation and Special Recommendation continues to remain *outstanding*.
16. For **Recommendation 40**, the gap relative to the third assessor recommendation that “*The Law should expressly allow MOT to collect information outside its register at the request of a counterpart FIU. One simple and adequate way to realise this is to put such foreign request legally at par with a disclosure, which would automatically bring them under the regime of art. 5 and 7 of the MOT Act*” is still *outstanding*. Consequently, this Recommendation remains *outstanding*.
17. With regards to **Special Recommendations III and V** the situation is the same as was noted in the second follow-up Report ([Suriname 2nd Follow-up Report](#)). Consequently these Special Recommendations remain *outstanding*.

OTHER RECOMMENDATIONS

18. The status of **Recommendation 9** remains as was reported in the third follow-up report. This Recommendation continues to remain *outstanding*.
19. The status of **Recommendation 15** is exactly as was noted in the third follow-up report and is consequently *outstanding*.
20. For **Recommendation 16**, the third follow-up report ([Suriname 3rd Follow-up Report](#)), lists the action already taken by Suriname to fix the shortcomings noted by the Assessors. It is instructive to note here that the MOT has made no distinction between financial institutions and DNFBPs which are together referred to as ‘service providers’. The outstanding issues were related to the non-issuing of guidelines by the FIUS, as supervisory authority for DNFBPs and the Gaming Supervision and Control Institute, insofar as gaming providers are involved. In October of 2012 the MOT issued guidelines for all service providers and

- Suriname has indicated that guidelines related to the operations of gaming providers will be introduced later. This action by Suriname has the effect of *significantly closing the gaps noted by the Assessors* and once the guidelines related to the operations of gaming providers have been issued this Recommendation will be fully *closed*.
21. The status of **Recommendation 17** is exactly as was noted in the third follow-up report and is consequently *outstanding*.
 22. As for **Recommendation 19**, no action has as yet been taken by Suriname.
 23. At **Recommendation 20**, the position remains the same as was noted in the third follow-up report in that Suriname has not as yet demonstrated that it is implementing measures that would encourage the development and use of modern and secure techniques for conducting financial transactions that are less vulnerable to money laundering. This Recommendation continues to be *outstanding*.
 24. The status of **Recommendation 22** is exactly as was noted in the third follow-up report and is consequently *outstanding*.
 25. The status of **Recommendation 24** is exactly as was noted in the third follow-up report and is consequently *outstanding*.
 26. For **Recommendation 25**, in October of 2012, the Unusual Transaction (MOT) Reporting Centre issued comprehensive guidelines to all Surinamese service providers who have reporting obligations. The aims of the guidelines are to provide insight into the legal responsibilities of such service providers particularly as those guidelines related to the prevention and combating of ML and FT. The guidelines are replete with guidance for service providers to follow in order to implement their respective AML/CFT obligations. At 3.4 of the guidelines there is a list of indicators and factors relating to various types of transactions, applicable to various service providers, which they can use to help recognize unusual (suspicious) transactions. At 3.1 of the guidelines there is guidance on the reporting of unusual transactions, which includes the period for reporting such transactions, to the MOT. The development and circulation of these guidelines clearly comply with the Assessors recommendation that Suriname “*introduce guidelines for DNFBPs to assist them with the implementation and compliance with their respective AML/CFT requirements*”. Consequently this gap is *closed*.
 27. The other Assessor recommendation that “*guidelines for financial institutions (and DNFBPs) that give a description of money laundering and terrorist financing techniques and methods*” – should be drafted has not as yet been taken on board and as such this gap remains *open*.
 28. Finally for Recommendation 25, Suriname has not provided any information on whether the FIUS has implemented any mechanisms to provide feedback to its reporting entities. *Recommendation 25 continues to be outstanding*.

29. For **Recommendation 30** Suriname has reported that on October 1, 2012 the CBS recruited 40 trainees from the University to be employed within various departments of the said CBS, including the supervisions department. After an initial six (6) months orientation period (ending in March 2013) these employees will be assigned to the different supervisory sections of the CBS and trained accordingly. On November 5, 2012 the Governor of CBS and the Ambassador of the USA signed a Terms of Reference (TOR) for Technical Assistance in the areas of training to include the drafting of supervisions manuals, and AML/CFT policies and procedures. Once implemented this action by Suriname will have the effect of significantly closing this Recommendation.
30. With regards to **Recommendation 32**, Suriname has completed and distributed a template to keep comprehensive statistics on the number of investigations, prosecutions, convictions and mutual legal assistance. This template has been distributed to the FIU, FOT, Gaming Board Prosecutors Office and the CBS. This Recommendation continues to remain *outstanding*
31. The status of **Recommendation 33** is exactly as was noted in the third follow-up report and is consequently *outstanding*.
32. With regards to **Recommendations 37 and 38** the situation in Suriname is still as was noted in the third follow-up report. This Recommendation continues to remain *outstanding*.
33. A **Special Recommendation VI** the Assessors had noted that “None of the requirements are included in legislation regulations or other enforceable means”. The recommended actions to cure this deficiency are as follows:
 - i. *A competent authority should be designated to register or licence MTCs and be responsible for ensuring compliance with licensing and/or registration requirements* – The information noted at paragraph 12 (ii) is relevant here. This gap is therefore *closed*.
 - ii. *A system for monitoring MTCs ensuring that they comply with the FATF Recommendations should be implemented. The mission also recommends that the CBS issues the AML/CFT Guidelines to MTCs that indicate circumstances in which a transaction might be considered as “unusual”* – At Chapter 5 (Supervision and Information) **art 26.1**, the CBS may issue guidelines for the business operations and the administrative organisation of MTOs. At **art 26.1 d** such guidelines will include regulations regarding the combating of ML and TF. The enactment of the MTOSA creates the infrastructure for implementing this recommended action. However Suriname now has to demonstrate that this specific action has actually been done. This gap remains *open*.
34. The other recommended actions for SR.VI have not as yet been addressed by Suriname. This Special Recommendation continues to remain *outstanding*.
35. The status of **Special Recommendation VII** is exactly as was noted in the third follow-up report ([Suriname 3rd Follow-up Report](#)) and is consequently *outstanding*.
36. The status of **Special Recommendation VIII** is exactly as was noted in the third follow-up report ([Suriname 3rd Follow-up Report](#)) and is consequently *outstanding*.

37. For **Special Recommendation IX** the second follow-up Report ([Suriname 2nd Follow-up Report](#)) had noted Suriname's intention to introduce a border management system ("BMS"). Suriname has now indicated that this system will be introduced in March of 2013 following the complementary introduction of a new embarkation and disembarkation card requesting passenger to declare if he/she is carrying currency or monetary instruments over US\$10,000 or equivalent in any other currency. The Border Management System will complement a security system on all border areas with the focus on monitoring the passenger flow coming into and leaving the country. Data from this system will be shared with the Alien Affairs Department of the Ministry of Justice and Police, the Ministry of Foreign Affairs and the Military Police. The Jurisdiction has promised to provide further details on the System later on. This Special Recommendation remains *outstanding*.

CONCLUSION

38. Suriname has enacted the MTOSA and implemented a new Border Management System. With the MTOSA, comes the ability to close a significant gap in the Jurisdiction's AML/CFT infrastructure relating to businesses that perform money transfer/exchange services.
39. For the **Core Recommendations**, SR II is now effectively closed whilst R. 1 and R. 13 and SR. IV await the enactment of legislation to criminalise of insider trading and market manipulation. The legislative process towards this enactment is in an advanced stage. There has also been improvement in the implementation of the **Key Recommendations** with Rec. 3 being closed and Recs. 23, 26 and 40 being significantly improved with just minor shortcomings remaining. However, the implementation of the **'Other' Recommendations** does not appear to have fared as well as the Core and Key with only Recommendation 16 being closed for this period.
40. The work by Suriname this period has demonstrated that the Jurisdiction is continuing to execute its agreed reform agenda even though it has not fully cured the shortcomings of the Core and Key Recommendations within the six (6) months from the last plenary meeting, as it had committed to do. This report has shown however that many of the measures required to implement the outstanding Recommendations have already been acted upon and are being actively pursued towards finalisation. It is with this in mind and the vast improvement of Suriname's AML/CFT infrastructure in general and the Core and Key Recommendations in particular, since being graduated to Enhanced follow-up, that it is recommended that the Plenary consider moving Suriname back to Expedited follow-up to report to the November 2013 Plenary where it is expected that Suriname would have then fully complied with all outstanding Core and Key Recommendations and substantially improved the Other Recommendations.

MLA on confiscation and freezing	PC	<ul style="list-style-type: none"> • Seizure and confiscation possibilities negatively affected in the MLA context by the non-criminalisation of all designated predicate offences and TF. • No formal legal basis for enforcement of foreign confiscation orders. 	<p>i. In order to enhance the quality and comprehensiveness of its MLA system, the Suriname authorities should endeavour to complete their penal legislation with a speedy introduction of the missing designated predicate offences (insider trading and stock market manipulation) and the offence of terrorism financing, so as to avoid all prohibitions resulting from the dual criminality principle.</p> <p>ii. The narrow and legalistic interpretation of the dual criminality principle should be put to the test and efforts should be made to try and create jurisprudence which would bring the application of this (rightful) principle in line with the broader international standard, which only requires the underlying conduct to be criminalised by both countries. Legal certainty on the capability to execute foreign confiscation orders should be ensured, if necessary through specific legislation.</p>	<p>According to art. 71a of O.G. 2011 no. 96, seizure and confiscation of goods and values, related to all designated predicate offences, including TF, has been made possible.</p> <p>Provisional and confiscation measures also related to TF are addressed, respectively in art. 82 and 82a of the Criminal Proceeding Code, and in art. 50, 50a, 50b and 50c of the Penal Code as amended in O.G. 2002 no. 67.</p>

SR.I Implement UN instruments	NC	<ul style="list-style-type: none"> No signing, ratification and implementation of the TF Convention; no effective implementation of the UN Res. 1267 and 1373 	<p>i. Suriname should take the necessary steps to fully and effectively implement the Vienna and Palermo Conventions</p> <p>ii. Suriname should forthwith initiate the accession procedure to the CFT Convention and take the necessary implementation steps.</p> <p>iii. UN Res. 1267 and 1373 should be implemented fully and without delay (see comments above on SRIII).</p>	<p>i. Several core principles of the Vienna Convention and the Palermo Convention have been incorporated in domestic law.</p> <p>ii. Draft legislation to become part of the CFT convention is in Parliament. According to the Suriname Action Plan to the ICRG, this legislation should come into force by mid August 2012.</p> <p>ii. On October 16th 2012 Parliament adopted the Act concerning the accession of the Republic of Suriname to the International Convention for the Suppression of the financing of terrorism. This legislation entered into force on November 2nd 2012. Ratification of the UN CFT</p>

ART IA sub 9, 71 a, 111a, 111b, 160 b, 188a, 228a, 228b of the CFT Act (O.G. 2011 no. 96) i.a. criminalizes the wilful provision or collection, directly or indirectly with the intention that the funds will be used in order to carry out terrorist acts.</p>
SR.II Criminalise terrorist financing	NC	<ul style="list-style-type: none"> • There is no legislation criminalizing FT; • Consequently, there are no TF related investigations, prosecutions and convictions. 	<p>i. Besides the criminalization of FT, local authorities should see to it, that, as soon as there is an act criminalizing the FT, comprehensive statistics be kept on the number investigations, prosecutions and convictions for the act of FT</p>	<p>The CFT legislation (O.G. 2011 no. 96) also amendments were made regarding the Fire arms Act and the act regarding suspicious transactions. In general all categories of predicate offences, related to money laundering are applicable to the financing of terrorism.</p> <p>A template to keep comprehensive statistics on the number of investigations, prosecutions and convictions is developed and will be formally distributed in August 2012 to the stakeholders: FIU, Prosecutors office and the Central Bank. SR.III Freeze and confiscate terrorist assets	NC	<ul style="list-style-type: none"> No system in place complying with the relevant UN Resolutions and providing for an adequate freezing regime 	<p>i. None of the criteria of Special Recommendation III are met by Suriname. Many of the people interviewed did not even know of the existence of UN Security Council Resolutions 1267 (1999) and 1373 (2001) and there implications, nor did they have any information regarding the Best Practice Paper.</p> <p>ii. The Suriname authorities should endeavour to introduce the appropriate legislative measures effectively implementing the relevant UN Resolutions and establishing an adequate freezing regime in respect of assets suspected to be terrorism related.</p>	<p>i. The CFT legislation (OG 2011 no. 96) in art. I and II, makes confiscation of assets related to the financing of terrorism, possible.</p> <p>ii. Provisions have been incorporated in the CFT Act (O.G. 2011 no. 96) to implement UN Res. 1373.
