VIRGIN ISLANDS – SECOND FOLLOW-UP REPORT

I. Introduction

1. This report is the second written follow-up report by Virgin Islands to the Caribbean Financial Action Task Force (CFATF) Plenary on the action taken to implement the recommended action listed in the third mutual evaluation report (MER) of Virgin Islands which was adopted in November 23, 2008. Virgin Islands submitted its first written report in May 2009 to the CFATF Plenary on actions it had planned, taken or was taking to deal with the factors/deficiencies resulting in relevant Financial Action task Force (FATF) Recommendation being rated largely compliant (LC), partially compliant (PC) or non compliant (NC). In accordance with present procedures the following is a report on measures taken by the Virgin Islands to deal with the recommended actions in those FATF Recommendations rated PC or NC. Details on the actions are outlined in Annex 1 of this report

2. Virgin Islands received ratings of C or LC on fourteen (14) of the sixteen Core and Key Recommendations and PC on the remaining two (2) Core and Key Recommendations as follows:

II. Summary of progress made by Virgin Islands

5. In response to the MER, the Virgin Islands has amended certain of its anti-money laundering/combating the financing of terrorism (AML/CFT) laws, regulations and guidelines incorporating most of the recommended actions from the MER. The latest revisions include:

- 1) The Anti-money Laundering and Terrorist Financing (Amendment) Code of Practice, 2009 which was enacted in January 2009.
- 2) The Financing and Money Services Act which was enacted in May 2009
- 3) The Proceeds of Criminal Conduct (Amendment) Act 2010 which was enacted in February 2010.

- 4) The Anti-money Laundering (Amendment) Regulations which was signed on April 29, 2010.
- 5) The Securities and Investment Business Act which was passed on April 12, 2010..

6. In accordance with the Virgin Islands commitment to effective implementation of the AML/CFT regime the Financial Services Commission (FSC) monitors AML/CFT activities that would have an adverse effect on the reputation of the jurisdiction and takes appropriate action where necessary. Periodic on-site inspections are conducted by each of its regulatory divisions and financial institutions continue to be sensitised to AML/CFT matters through the FSC's Meet the Regulator Forums. The other agencies involved in combating ML and TF activities continue to strengthen their law enforcement tools and systems in order to ensure the full and effective implementation of the Anti-money Laundering Terrorist Financing Code of Practice (AMLTFCOP), the Anti-money Laundering Regulations (AMLR) and the related Proceeds of Criminal Conduct Act (PCCA) and other relevant legislation designed to effectively deal with money laundering (ML) and terrorist financing (TF). The Inter-governmental Committee on AML/CFT discusses and exchanges information on AML/CFT vulnerabilities and determines how best member agencies can strengthen cooperation in order to ensure that activities of ML and TF in and through the Territory are minimized.

Core Recommendations

Recommendation 5

7. The examiners' recommended actions have been incorporated in the AMLTFCOP as amendments enacted in January 2009 which are detailed in Annex 1 of this report. With regard to the recommended action for the issuance of a list of jurisdictions having in place measures implementing FATF Recommendations, Schedule 2 of the AMLTFCOP was reviewed in July 2009 taking into account compliance with the FATF Core and Key Recommendations. This review resulted in five new jurisdictions being added to the list.

Key Recommendations

Recommendation 23

8. The examiners' recommended actions have been implemented with the enactment of the Financing and Money Services Act (FMSA) on 26th May 2009. Additionally, nineteen (19) persons have been added to the FSC staff since the evaluation in 2008; eleven (11) in the regulatory divisions to improve the FSC's supervisory coverage. The enhancement of the FSC's staff complement has allowed for an increase in on-site inspections of its licensees. The numbers of inspections have increased from 17 in 2007 to 53 in 2008 and 35 in 2009.

Other Recommendations

Recommendation 8

9. All examiners' recommended actions have been incorporated in the AMLTFCOP as amendments enacted in January 2009 as detailed in Annex 1 to this report

Recommendation 9

10. The response of the authorities as set out in Annex 1 of this report does not address the examiners' recommended action which therefore remains outstanding.

Recommendation 11

11. All examiners' recommended actions have been incorporated in the AMLTFCOP as amendments enacted in January 2009 as detailed in Annex 1 to this report.

Recommendation 12

12. The chief concern of the examiners was the fact that deficiencies identified in Recs. 5, 6, 8 – 11 were also applicable to DNFBPs and a relevant recommendation was made. The actions taken by the authorities in relation to the deficiencies outline in Recs. 5, 8, 9 and 11 are dealt with in the respective sections of this report. The response of the authorities to the examiners' deficiencies for Recs. 6 and 10 are set out in Annex 1 and adequately address the deficiencies.

Recommendation 15

13. The examiners' recommended action for financial institutions to be required to maintain an adequately resourced and independent audit function to test compliance with AML/CFT procedures policies and controls has been incorporated in the amended AMLTFCOP as detailed in Annex 1 to this report.

Recommendation 16

14. The examiners recommended implementation of the specific recommended actions with regard to Recs. 13 to 15, and 21 for designated non financial businesses and professions (DNFBPs). The recommended action for Rec. 13 requires the enactment of legislation to criminalize market manipulation and insider trading. This recommended action has been incorporated in the Securities and Investment Business Act which was passed on April 12, 2010.

15. The recommended action with regard to Rec. 14 required the tipping-off offence to be extended to include disclosure of the fact that a STR or related information is

being reported or provided to the FIA. This measure has been incorporated as an amendment in the Proceeds of Criminal Conduct (Amendment) Act 2010 (PCCAA) as set out in Annex 1 of this report. The PCCAA was enacted in February 2010.

16. The recommended actions with regard to Recs. 15 and 21 have been adequately addressed as noted in the relevant sections of this report. As such all recommendations have been adequately met.

Recommendation 17

17. The examiners' recommended action required a review of sanctions imposed in the AMLR and the AMLTFCOP with a view to making them dissuasive. The authorities advised that the PCCA has been amended to increase the penalties for:

- contravening provisions of the AMLTFCOP;
- assisting another to retain the benefit of criminal conduct;
- the acquisition, possession or use of proceeds of criminal conduct;
- concealing or transferring proceeds of criminal conduct;
- failing to report suspicious transactions;
- tipping-off; and
- making a disclosure that would likely prejudice an investigation upon knowing that or suspecting that the investigation is taking place once an order has been made or applied for.

18. Further, the administrative penalties outlined in Schedule 4 of the AMLTFCOP are expected to be increased after the coming into force of the amendments to the PCCA (the parent legislation). The amendments are dealt with under the Proceeds of Criminal Conduct (Amendment) Act, 2010 which was enacted in February 2010.

19. A review of the penalties imposed by the amended POCA reveal a range of fines from a high of \$40,000 to a low of \$20,000. While these penalties are substantially greater than what obtained before, they are still not considered dissuasive when compared with jurisdictions of similar development..

Recommendation 21

20. All examiners' recommended actions have been incorporated in the AMLTFCOP as amendments enacted in January 2009 as detailed in Annex 1 to this report.

Recommendation 22

21. All examiners' recommended actions have been incorporated in the AMLTFCOP as amendments enacted in January 2009 as detailed in Annex 1 to this report.

Recommendation 24

22. The examiners recommended that effective systems for monitoring and ensuring compliance with AML/CFT requirements by real estate agents, lawyers, accountants and dealers in precious metals and stones should be implemented. The authorities advised that the Joint Anti-money Laundering and Terrorist Financing Advisory Committee (JALTFAC) has been tasked with the responsibility of reviewing the current AML/CFT supervisory regime in place and recommend a way forward as to how best real estate agents, lawyers, accountants and dealers in precious metals and stones may be dealt with in relation to their supervision for AML/CFT compliance. The independent professionals currently fall under the purview of the Financial Investigation Agency (FIA) by virtue of section 9 (2) of the AMLTFCOP, but the current plan seeks to explore the effectiveness of the current arrangement in order to ensure full monitoring and supervision of these independent advisers. This process is ongoing.

23. Additionally the examiners recommended that deficiencies identified regarding sanctions and sufficient resources for the FSC should be remedied. These deficiencies are the basis for recommended actions under Recs. 17 and 23. As noted in the section dealing with Rec. 17 the penalties that have been amended are still not considered dissuasive.

24. As previously mentioned under Rec. 23, 19 additional persons have been added to the FSC staff since the evaluation in 2008; 11 in the regulatory divisions to improve the FSC's supervisory coverage. The enhancement of the FSC's staff complement has allowed for an increase in on-site inspections of its licensees. Given the above, only one of the examiners' recommended actions has been partially implemented.

Recommendation 30

25. The examiners recommended that the Anti-Drug and Violent Crimes Task Force (ADVCTF) should be adequately staffed and trained in the techniques of ML and FT investigations. The authorities advised that seven of the eighteen officers have received AML/CFT training and that additional training has been identified which members of staff are scheduled to participate in within the next six months. There is also some in-house training slated to take place shortly. It is also part of the plan to provide training to members of the Inter-governmental Committee on AML/CFT and their staff regarding AML/CFT obligations and investigative techniques. While the above response deals with the issue of training, there is no reference to the level of staffing in the ADVCTF.

26. The other recommended action required the FSC to review present staff complement with a view to improving supervisory coverage. This is similar to the recommended action under Rec. 23 and is dealt with under that section of this report.

Recommendation 33

27. The examiners recommended that the FSC should implement an effective monitoring system to ensure that registered agents are maintaining adequate and current beneficial ownership information. This recommendation was based on the examiners' concern about the low number of inspections of registered agents carried out by the FSC. The authorities' response as set out in Annex 1 outlines the type of on-site inspection programme used by the FSC. The table below demonstrates the FSC's improved monitoring of registered agents through its onsite inspection programme in accordance with the examiners' recommendation.

Table 4; Number of on-site inspections of registered agents carried out by the FSC

Year	Number of onsite inspections	Percentage of providers inspected	Percentage of market-share inspected (in terms of number of companies/trusts covered or otherwise)
2009	19	16.0	41.9
2008	22	18.0	24.9
2007	14	12.0	17.5
2006	10	9.0	4.6

SR. VI

28. In accordance with the examiners' recommended action, the FMSA was enacted on May 26, 2009 requiring the licensing of all natural and legal persons that perform money or value transfer services to be licensed. The deficiencies identified by the examiners have been addressed in the FMSA which require all money value service operators to comply with the provisions of the AMLTFCOP and the AMLR. As the supervisory authority, the FSC is also responsible for monitoring the money value operators and ensuring that they comply with FATF Recommendations.

SR. VIII

29. In response to the examiners' recommended action for a review of the adequacy

of the laws that relate to non profit organizations (NPOs), the authorities have amended the AMLTFCOP by inserting a new section imposing requirements on NPOs for the establishment of internal control systems, the implementation of customer due diligence measures, the maintenance of record keeping requirements and the provision of employee training as outlined in Annex 1 of this report.

30. With regard to the examiners' recommended actions for the development of an outreach programme to the NPO sector and a supervisory programme to identify non-compliance and violations, a separate licensing and supervisory regime for NPOs has been recommended by the FSC to the Government. It is the plan that the new regime would establish a body that would undertake the relevant outreach programme to NPOs. Given the above, the examiners' last two recommended actions remain outstanding until the regime for the NPOs has been effectively implemented.

Conclusion

31. The recommended actions with regard to Recs. 5 and 23 have been met. For the other recommendations, Recs. 8, 11, 15, 16, 21, 22, 33 and SRVI have adequately addressed the examiners recommended actions. The remaining recommendations have partially complied with the relevant recommended actions. These measures demonstrate Virgin Islands' commitment to comply with FATF AML/CFT standards.

32. Based on the foregoing it is recommended that the Virgin Islands report back on its ongoing progress to the November 2010 Plenary and Council meetings.

				<p>whether they substantially comply with the FATF Recommendations to warrant their inclusion in the list of recognised jurisdictions. This Schedule was indeed reviewed by the Joint Anti-money Laundering and Terrorist Financing Advisory Committee (JALTFAC) in July, 2009, taking into account compliance with the FATF core and key Recommendations and the International Cooperation Review Group’s process of listing jurisdictions that fall below the established standards regarding the said core and key Recommendations, which resulted in the addition of five new jurisdictions to the Schedule, with two of those being identified for biannual reviews by JALTFAC. 9 Third parties and introducers	PC	No requirement for a financial institution to immediately obtain from all third parties necessary information concerning certain elements of the CDD process itemised in criteria 5.3 to 5.6	<ul style="list-style-type: none"> Financial institutions relying upon a third party should be required to immediately obtain from the third party the necessary information concerning certain elements of the CDD process itemised in criteria 5.3 to 5.6 	<ul style="list-style-type: none"> The AMLTFCOP makes it a requirement for all financial institutions relying on third party introducers to satisfy themselves that the relevant CDD process has been engaged and all relevant information is maintained and can be provided immediately upon request. The Territory believes that the intent of this aspect of Recommendation 9 is to ensure the availability of CDD information whenever it is required and not that it should be obtained upfront in each case of introduced business. A review of other CFATF member countries’ AML/CFT regimes lends support to this interpretation. In particular, where an introducer resides in a jurisdiction that is recognised under Schedule 2 pursuant to section 52 of the AMLTFCOP, the legal presumption and the presumption under Recommendation 5 is that the introducer would be properly and effectively monitored for AML/CFT compliance (including the carrying out of relevant CDD actions) in that recognised jurisdiction such that it does not synchronise with logic that CDD information should be immediately required from the same introducer. With regard to introductions from non-recognised jurisdictions, the requirement is that all financial institutions must obtain the required CDD information

				before or at the time of accepting the introduced business; there is no exception in that regard.
10 Record keeping	LC	<p>Record retention of identification data is limited to five years after the last transaction of an account rather than the termination of the account</p> <p>No requirement for account files and business correspondence to be maintained for at least five years following the termination of an account or business relationship.</p>	<ul style="list-style-type: none"> The AMLTFCOP should be amended to remove the possibility of identification data being destroyed five years after the last transaction of an account that has not been formally terminated. Account files and business correspondence should be maintained for at least five years following the termination of an account or business relationship. 	<ul style="list-style-type: none"> Section 44 and 45 of the AMLTFCOP have been amended to remove the possibility of identification data being destroyed five years after the last transaction of an account that has not been formally terminated The Anti-money Laundering (Amendment) Regulations have been drafted to delete paragraph 10 (1) (c) which allowed the maintaining of records for a period of five years from the time “when the last transaction was carried out”. The determining period under the amendment now relates only to the time when the established business relationship was formally ended, which complies with the Examiners’ recommended action. This amendment is expected to be enacted before the next CFATF Plenary in 2010.
11 Unusual transactions	PC	<p>Financial institutions are not required to examine as far as possible the background and purpose of complex, unusual large transactions or unusual patterns of transactions that have no apparent or visible economic or lawful purpose and to set forth their findings in writing.</p> <p>Financial institutions are not required to keep such findings available for competent authorities and auditors for at least five years.</p>	<ul style="list-style-type: none"> Financial institutions should be required to examine as far as possible the background and purpose of complex, unusual large transactions or unusual patterns of transactions that have no apparent or visible economic or lawful purpose and to set forth their findings in writing. Consideration should be given to exposing staff to attachments to other FIUs to allow them to develop all aspects of their job. ▪ FIA annual reports should include typologies. ▪ Efforts should be made to implement electronic delivery of SARs to the FIA. ▪ The relevant authorities should consider intensifying their education/training programme with the various entities with respect to the preparation and filing of SARs. 	<ul style="list-style-type: none"> ▪ The training needs of members of staff of the FIA are constantly reviewed. Training in the areas of AML/CFT including analysis and investigations has been identified and provided. As a member of the Egmont Group, the FIA is willing to provide training for its staff through attachments with other FIUs within the Egmont Group. The Egmont Group is due to develop a plan to facilitate such attachments. In the meantime, the FIA staff continues to participate in regional and international training programmes geared towards enhancing skills in the preparation of typologies and the AML/CFT investigation techniques. <p>Since the Territory's evaluation in 2008 eight members of the FIA's staff have been trained in AML/CFT, eight in AML/CFT compliance, one in Financial Analysis, one in Intelligence Analysis, one in Financial Crimes Analysis and one in Strategic Analysis. Future training plans include the full certification of the FIA's analysts and investigators as Anti-money Laundering specialists in 2010. 				<ul style="list-style-type: none"> ▪ The number of SARs filed by reporting entities is relatively small in comparison to other larger jurisdictions and the FIA currently receives, on average, one hundred and fifty SARs per year. While all SARs filed are currently hand delivered, the FIA intends as part of its current plan to encourage regulated institutions to file reports electronically and it is anticipated that provision will be made for the electronic delivery of these reports in the near future. The FIA does, however, feel that the option to hand deliver reports should be maintained as a backup mechanism to the electronic delivery of these reports. Furthermore, because of the size of the jurisdiction and considering the centres of activity, the BVI does not consider the filing of SARs by means other than electronic filing to be ineffective or to cause any delay. ▪ The FIA provides training on AML/CFT, the reporting of SARs, and the role of the FIA to reporting entities on an ongoing basis. Since 2008 the FIA has provided AML/CFT and SAR reporting training to eleven reporting entities including two of the Territory's banks. The FIA is dedicated to the continued enhancement of its outreach programme which aims to raise awareness of AML/CFT matters within the financial services sector including targeting NPOs and other DNFBPs. ▪ The FSC conducts bi-annual Meet the Regulator Forums which afford it the opportunity to educate the industry on current and emerging AML/CFT trends. Regulated entities are, however required, under the AMLR and AMLTFCOP, to conduct their own training of staff to ensure that they remain fully aware of their AML/CFT obligations at all times and are fully capable of fulfilling those obligations.
